

Chamber of Commerce Review of Achievement

Shapiro & Rubin Industry Only the Latest of Recent Enterprises Promoted for the Good of the City—Details of Plans Having to Do With the Latest Industrial Growth.

(Official Statement.)

Chamber of Commerce organizations in all parts of the country are striving either to assist their existing industries to enlarge their plants so as to give employment to more employees, or to bring into their communities new industries to accomplish the same end.

The Kingston Chamber is doing just this and lest some may have forgotten, we remind those who read this article of our activities in the Governor Clinton Hotel and later in the assistance rendered the Schilling Furniture Company who recently enlarged their plant and who now are employing many more men.

Not many look upon a hotel as an industry, nevertheless, it does employ a large force of employees and is in this respect a source of revenue to the city.

Now we are happy to tell of a new industry secured for the city through the efforts of the Chamber. Notices of this transaction have already appeared but some people are still doubtful. However, with the building in actual process of construction, the new industry is an assured fact. Perhaps, one of the outstanding reasons for this assertion is that Shapiro & Rubin were willing and anxious to meet all of the requirements put forward by the Board of Directors of the Chamber to safeguard those who were willing to assist the project with their money. A second reason is the willingness on the part of our local merchants to subscribe to the second mortgage bonds. A great deal of credit is due to Max L. Reben who, without thought of profit to himself, gladly purchased the necessary property for the location of the building to be held until such time as it could be taken over by the new organization.

With such cooperation on all sides it was possible to secure for Kingston this new industry which, it is believed, will be a great addition to the industrial life of the city.

In the working out of the project, Shapiro & Rubin have thought it wise to form a holding corporation to handle the property only. This corporation will be known as the Smith and Grand Street Corporation. In this corporation, Shapiro & Rubin are placing \$10,000.00; a local bank will loan the Corporation, \$27,500.00 on a first mortgage; and the Chamber has agreed to sell \$28,000.00 of second mortgage bonds. These bonds will bear 5 per cent interest and will be retired by allotment each year, beginning at the end of a three year period by the Smith and Grand Street Corporation. This corporation will assume all overhead expenses incurred in the operation of the plant.

Under the plan above outlined all second mortgage bonds will be retired in an eight year period. Mr. Reben is selling these bonds and would be glad to call on any of our citizens who are inclined to purchase them.

In the matter of awarding contracts, full recognition has been given to local contractors and the plans were drawn by Architect George E. Lowe of Kingston.

Frank S. Campbell has the contract for the masonry and carpenter work. The plumbing, heating, roofing and metal work has been awarded to Fred M. Dressell. The electrical work will be installed by Joseph A. McNelis & Co. While the building will not be an elaborate one, it will be modern and up-to-date in every way.

Every effort is being made to complete the building by December first, upon which date Shapiro & Rubin will begin to install their machinery and will as quickly as possible get in production. With the new plant fully equipped, it is expected that in excess of two hundred will find employment.

They have been in the business of manufacturing novelty clothing, knickers, pants, camp clothing and sweaters for over twenty years.

As an additional safeguard to Kingston investors, E. Frank Flanagan, President of the Chamber, has been made a director in the new corporation. All funds will be placed in the bank making the first mortgage loan and funds so deposited can be withdrawn for no purpose other than for the erection of the building. No checks will be issued except on a certificate from the architect and all checks must be countersigned by the local director.

Shapiro & Rubin will be well-served to Kingston by all who are interested in the growth and welfare of the city. Their reputation among the trade has borne the closest investigation and it is the belief of the Board of Directors that Kingston is most fortunate in securing this firm to locate here.

Sewing Circle Meeting.
The first seasonal meeting of St. Peter's Sewing Circle will be held Thursday afternoon in the school hall. A large attendance is looked for.

Uptown Business Men's Officers

Vincent A. Gorman Was Elected President of the Association—Discuss Plans for Restricting Parking in Business Districts.

Plans for restricting parking in the uptown business districts were talked over Tuesday evening at the meeting of the Uptown Business Men's Association held at Liberty Restaurant. About fifty business men were present at the meeting. Following the dinner, parking was freely discussed and officers were elected for the coming year.

The merchants expressed themselves as desirous of restricting parking on the business streets in order to make it more convenient for the shoppers. Several plans were submitted, such as limiting parking to hourly or half-hourly periods. A committee was appointed to take up the question with the city officials.

Vincent A. Gorman was elected president of the association for the coming year. Other officers elected were: Louis M. Wolfson, vice president; George A. Flemings, treasurer; and Louis S. Coe, secretary.

Skunk Killed, Mad Dog Shot

The Mad Dog Was on Second Avenue and the Skunk on East Strand—Lively Incidents in the Life of a Kingston Policeman.

"There's a mad dog on Second avenue, send a policeman," was the urgent plea received by the police department on Tuesday afternoon and Officers Harnen and Relyea were assigned the job. They found the mad dog to be a police dog that was attached to a rope to a post out in the back yard. The dog was frothing at the mouth and savagely yanking at the rope that restrained it. As the animal ran back and forth as far as the rope would allow it made a rather difficult target and Officer Relyea watching his opportunity suddenly grasped the rope and jumped over the nearby fence hauling the dog close to the fence so that it was unable to move, when it was promptly shot by Officer Harnen.

Tuesday evening while Officer Fitzgerald was patrolling his beat on East Strand his nose informed him that there was an unwelcome visitor in the vicinity. Following his nose the officer found a skunk crouched in the cellarway of the Arcade building on the Strand. After locating the animal the officer killed it with a club.

Will Report On City Hall

Mayor Calls Special Meeting of Common Council to Receive Report of Special Committee on City Hall and Listen to Architects.

Mayor Dempsey has requested a special meeting of the Common Council to be held Friday evening of this week, at 8 o'clock. The purpose of the meeting is to receive the report of the special committee and examine the tentative plans of the architects for the reconstruction of the City Hall.

If the plans as presented meet the approval of the Common Council, it is expected that detail plans and specifications will be ordered completed and bids advertised for.

The importance of starting this work at the earliest possible date is emphasized.

PROWLERS ON HILTON FOX FARM, SAUGERTIES

Archie Herrman, of the Hilton Fox Farm, Saugerties, fired a fusillade from his .32 calibre revolver at a trespasser with no ill results Monday between 2 and 2:30 a. m. Herrman, awakened by his wife after she heard noises near their residence, investigated and saw two men crossing his property. After firing at one man Herrman notified State Troopers William Cashion and William Nagel, who made an investigation. The identity of the men who have prowled about the farm for some time, could not be learned but clues indicated that they came from the vicinity of the Hudson river.

World Pilots to Continue Flight

Expect to Hop Off on Friday for Midway Islands—Japanese Aviators Believe Attempt Would be Successful.

Tokyo, Sept. 14 (AP).—Edward F. Schlee and William S. Brock, pilots of the round the world monoplane *Pride of Detroit*, today announced they expected to hop off near here Friday for Midway Islands, nearly half way across the Pacific.

This was a reiteration of the statement made previously by the fliers at Omura, where they were held up two days by bad weather. They arrived at Kasumigaura, near here, today after a 600 mile trip from Omura.

The projected flight to Midway means a hop of 2,450 miles over water and almost endless navigation if they are to reach their destination. Midway is only a coral formation of a few square miles in area. Japanese aviators believe the attempt would be suicidal and there has been a wave of protest against their disposition to continue.

Once at Midway, the fliers would face a 1,400 mile gap of water to Honolulu and then 2,400 more miles to San Francisco. They must fly to Harbor Grace, N. F., to complete their itinerary.

WOMAN LEAPS INTO NIAGARA FALLS RAPIDS

Niagara Falls, N. Y., Sept. 14 (AP).—A woman leaped from the Goat Island bridge into the upper rapids today and was swept to death over the American falls.

Witnesses of the woman's leap found on the bridge a street car company excursion circular on which had been scratched with a pin in several places the following name and address: "Jessie S. Biggar, 22 Laidwell Terrace, Buffalo, telephone BL 2514-J."

The woman was about 50 years old with gray hair. She left a tan coat with fur collar on the bridge and near the coast was found a pair of tortoise shell rim glasses.

WALKER PLACES WREATH ON TOMB OF SOLDIER

Paris, Sept. 14 (AP).—Mayor Walker of New York, flanked by General Gouraud, military governor of Paris, and M. Bouju, prefect of the Seine department, made a solemn pilgrimage at noon today to the tomb of France's Unknown Soldier. The mayor appeared deeply moved as he placed a wreath upon the tomb and stood at attention for a full minute in the midst of a profound and impressive silence.

Fully 10,000 persons had gathered around the tomb for the ceremony. The crowd was swelled by many midwives who had forsaken their lunch hour to obtain a sight of New York's first citizen.

STILL SEARCH FOR SLAYER OF TROOPERS

Corning, N. Y., Sept. 14 (AP).—Convinced that Wilnot Leroy Wagner, murderer of two state troopers at Canadea last week, is hiding in the vicinity of Addison, the posse which yesterday sought, to capture the stranger who threatened to shoot Mrs. James Dominic, near Addison, renewed efforts this morning, augmented by twenty more state troopers.

Over 200 county and village police, citizens and troopers joined in the search yesterday but their efforts were fruitless in the dense woods in which the man took refuge.

AN AUTOMOBILE COLLISION AT RONDOUT CREEK BRIDGE

Tuesday evening an automobile driven by Earl Terwilliger of Port Ewen and a taxi owned by Louis Simon and driven by Hugh O'Neil of 55 East Strand, came together at the entrance to the Rondout Creek Bridge. The headlights, bumper and fender on the Simon car were damaged and the two rear wheels on the Terwilliger car dished. Each driver blamed the other for the collision. No one was injured.

BOYS BOULEVARD PROPERTY

Cero Decespolo, a retired grocer in New York, has purchased through James E. Snead, the real estate broker, the twelve room residence with five acres of land on the Boulevard within the city limits, of Sophy S. Lusk. Mr. Decespolo will spend the winter in Europe and in the coming spring will bring his family to Kingston, and after having many improvements made to the property will make his home on the Boulevard.

Clubman Kills Himself

Washington, Sept. 14 (AP).—While standing before a mirror, Frank P. Mitchell, 69, wealthy clubman and prominent socially in the east, shot and killed himself at the Metropolitan Club here last night. Ill health was believed to have been the motive for his act.

Little Gardens Club

The Little Gardens Club of Kingston will hold the first fall meeting at the home of Mrs. Daniel Connelly, Henry street, Friday afternoon, September 16, at 2:45 o'clock. There will be a round table on flower planting in the fall by the hostess.

Seven Held After Crossing Accident Tuesday

Held in Jail Aggregating \$50,000—Thirty-one Injured, Two Perhaps Mortally—Claim There was a Double Misunderstanding of Signals.

Weehawken, N. J., Sept. 14 (AP).—Seven men were held today in jail aggregating \$50,000 after a collision of a doubly safeguarded crossing between a freight engine and a trolley car in which thirty-one persons were injured, two perhaps mortally. Those arrested after the crash during the rush hour last evening comprised the crew of the locomotive, the railroad trowman, and the operator of the one-man trolley, the latter being under custody in a hospital.

The trowman said the mechanism of the crossing gates failed to work. The switchman, whose duty it was to derail the trolley if there was not a clear track ahead, could not be found last night.

Reports from hospitals indicated that only six of the injured were believed to be seriously hurt. The two persons critically hurt are William Penfield, of Orange, who suffered a crushed chest and skull and Francis Hanson, of Lyndhurst, who has fractured ribs and internal injuries. Little hope was held for Penfield's recovery.

The cause of the accident appeared to be a double misunderstanding of signals. The trolley had approached the crossing and waited until one freight train passed. The gates were raised and the trolley switchman was said to have signalled the car to proceed. The derailing switch was upset, indicating a clear right of way for the trolley.

When midway of the four tracks the locomotive sped up but the locomotive caught the rear of the trolley and scattered its wreckage along the tracks. Passengers with broken legs and arms were entangled in the wreckage, which was carried fifty feet by the locomotive before it ground to a stop.

Little Hope for Old Glory Fliers

Ship Which Found Wreckage of Plane Continues Hunt for Two Pilots and Passenger—Still Hope to Find Rubber Boat.

New York, Sept. 14 (AP).—Only the faint hope that a small collapsible rubber boat with three air adventurers had survived the storm-tossed Atlantic since last Wednesday today remained to searchers for the occupants of the monoplane *Old Glory* after discovery of the wrecked bulk of the craft 600 miles off Newfoundland.

With a detailed description of the recovered wreckage, the searching steamer *Kyle* last night reported it "will continue the search, come what may." The tenacious hope of the searching craft was indicated in one line at the end of another message, "we still are searching for the boat."

The *Kyle* indicated the steel fuselage of *Old Glory* was shattered either by the force of its fall or the blows of the waves. No mention was made of the main tank holding 900 gallons of gas, so this huge weight probably went to the bottom with the frame.

"The ships under carriage and left wheel are fairly complete," stated the despatch received by the New York Daily Mirror, owned by William Randolph Hearst, backer of the night, from Douglas Muir, its correspondent aboard the *Kyle*. "But the wings and supports are a tangled mass of staves, giving evidence of boisterous weather in this vicinity which may give a clue to the fate of the three brave men who accompanied *Old Glory* on this ill-fated endeavor."

Both Muir and Captain Towner, in command of the *Kyle*, left no doubt in their messages that the wreckage found was that of *Old Glory*, but neither intimated much confidence in the success of continued search for Lloyd Bertaud and James D. Hill and their passenger, Philip A. Payne, managing editor of the *Mirror*.

CHAMBER'S ENGAGEMENT "A PRACTICAL JOKE"

New York, Sept. 14 (AP).—The New York American in a despatch from Paris quotes Isadora Duncan, dancer, as saying at Nice that her reported engagement to Robert Chanler was a "practical joke."

Gilligan Was Arrested

Donald J. Gilligan, who said he lived in Poughkeepsie, was arrested at midnight by Officer Dempsey who charged him with operating a car without the proper license papers. Gilligan furnished \$10 bail for his appearance later in police court. His car was placed in the police garage.

Tailors Purchase Lot

The Kingston Tailors' Association, Inc., recently purchased a lot, 50 by 222 feet on the corner of Albany avenue and Wrentham street upon which they plan to erect a cleaning and drying plant. The purpose of starting the industry is for better service and lower prices it is stated.

Bids Received for Ellenville Road

Utica Engineering Company Low Bidder for Work—Bids Received for Other Roads—All Bids Considerably Below Engineer's Estimate.

Bids for the construction of highways were received at the New York State Highway Department on September 9 and the following concerns were lowest bidders on the construction of highways mentioned: Dale Engineering Co., Utica, N. Y., \$241,458 for work on the Kingston-Ellenville Highway No. 230, points 1 and 2, a distance of 5.56 miles. Hokeboom & Campbell, Inc., of this city, \$249,569.25. The state engineer's estimate was \$334,743.20, considerably higher than any of the bids submitted.

Connell & Laub, Canastota, N. Y., \$102,596.50 for work on the Red Hook-Rhinebeck Highway No. 5092 and Rhinebeck-Hyde Park, No. 432, Dutchess county, a distance of 1.73 miles. The engineer's estimate was \$151,393.05. Hokeboom & Campbell of this city bid \$118,456.50.

Connell & Laub, Canastota, N. Y., \$369,298 for work on the Rhinebeck-Elizaville Dutchess county highway, a distance of 5.38 miles. The engineer's estimate was \$525,436.50.

NEGOTIATIONS TO END ILLINOIS STRIKE FAIR

Chicago, Sept. 14 (AP).—Peace in the Illinois coal fields seemed as far away today as ever.

Negotiations to end the strike which began April 1, failed yesterday when the operators rejected a proposal that the miners return to work at the old wage scale pending an investigation prior to February 1 by a joint committee of four miners and four operators.

The conference then adjourned, the miners asserting they would not bow before the threat of "hard times" this winter, and the operators blaming failure of the meeting on the inability of the miners to free their hands from the restrictions placed on them last winter by the union's national policy committee.

CHALLENGE RIGHT OF KING ALFONSO TO RULE

Bendaye, Franco-Spanish Frontier, Sept. 14 (AP).—King Alfonso's right to sit on the throne of Spain is challenged in a letter sent to the sovereign by Jose Sanchez-Guerra, former premier and leader of the conservative party.

NINE APPLICANTS FOR NIGHT POLICE OFFICER

At a recent meeting of the trustees of the village of Ellenville, presided over by Mayor Herman S. Wells, nine applications were received for the position of night police officer, left vacant when Officer John Brown died suddenly. The village solons decided to defer action. Several of the applications were from unqualified men. George Meyers, who is now filling the vacancy, will continue to act as night officer, assisted by Enos Van Demark, until a permanent appointment is made at some future date.

COLUMBIA WILL START FOR FAR EAST VERY SOON

London, Sept. 14 (AP).—The flight of the transatlantic monoplane *Columbia* to the far east will be started at the earliest possible moment, Captain W. G. Hinchcliffe today told the newspaper men after a talk with Charles A. Levine, owner of the plane.

Conditions being favorable, Captain Hinchcliffe added, the *Columbia* might even hop off from Cranwell tomorrow morning.

Rosendale Democrat Club

The Rosendale Democrat Club will hold its regular fall dance at the Bijou Hall, Rosendale, tonight. Jack Erne's broadcasting orchestra will furnish the music. Bus service from Kingston and surrounding communities has been provided to commute those who wish to attend. The annual dance of the club is one of the outstanding social events of Rosendale and is attended by the prominent residents.

One Year for Manslaughter

Rockville, Conn., Sept. 14 (AP).—Leonard Cline pleaded guilty to a charge of manslaughter in Toland superior court today and was immediately sentenced to serve one year in jail and pay a fine of \$1,000.

Installs Frigidaire

The Central Hudson Gas & Electric Company has completed the installation of a large frigidaire. In connection with a Lorillard refrigerator in the cafeteria at the High School.

P-T-A Meeting

The Parent-Teacher Association of School No. 1 will meet Thursday at 3:30 p. m. in the school. All members are expected to be present.

Mexican Storm Details Still To Be Disclosed

Total Collapse of Telegraph and Railway Keeps from World Story of Wholesale Death and Destruction Believed to Have Been Caused by Storm.

Nogales, Ariz., Sept. 15 (AP).—Total collapse telegraph and railway today still kept from the world details of the wholesale death and destruction believed to have been dealt out by a storm which for three days last week lashed a thousand miles of the coast of Mexico's seaboard.

Officials of the Southern Pacific of Mexico last night reported that no train connections with Mexico City or southern coast points would be made today. Guaymas Sonora, main seaport of the west coast of Mexico, is the northernmost coast point on the Southern Pacific of Mexico. Below that point communication was virtually impossible.

Meager reports that the death toll in Salina Cruz and Manzanillo, both important west coast seaports, was enormous, gave cause for speculation regarding the picture which would be revealed with improved communications.

Salina Cruz, port town of the state of Oaxaca, according to dispatches from Guaymas, felt the full fury of the hurricane. The town was said to be in ruins and it was believed that the loss of life ashore and at sea might run into hundreds.

Twenty-five foot breakers tore across the water front and rolled far into the town.

Two ships of the National Line, the *Jalisco* and the *Narvaes*, were reported missing and there were fears for the safety of the fishing fleet which put out from Mazatlan, Sinaloa. Government officials were inclined to believe, however, that the fishing craft might have reached safety at some point on the peninsula of Lower California or might have even returned to Mazatlan.

G. A. R. Members Hold Their Parade

Those Present at Sixty-first Annual Convention Cover Route a Mile Long—Only Veterans Permitted to March.

Grand Rapids, Mich., Sept. 14 (AP).—The annual parade of the Grand Army of the Republic occupied the thoughts today of the veterans of the Civil War here for their sixty-first annual encampment. Over a route a mile long, much of it a wearisome ascent, the march provided a test for limbs and bodies that long ago lost much of their vigor.

For many of the old soldiers it was the last parade; possibly it was the last parade of the G. A. R. as an organization.

None but soldiers of the Civil War were permitted to participate in the march. Women, children and civilians were denied places in the line. No flags or standards, excepting the national and state flags and department and post flags were allowed.

With the parade as today's outstanding event, log rolling for the coming election was temporarily in the background. While the names of five or six of the visiting veterans were mentioned for commander-in-chief when the convention opened, those of Elbridge L. Hawk, of California and John C. Clem, of Washington, D. C., are most frequently heard today.

Dry Law Helps Shipping Lines

Washington, Sept. 14 (AP).—Prohibition is an asset rather than a detriment to United States shipping lines, in the opinion of President Dalton, of the Merchant Fleet Corporation, who has returned here from a European tour.

"Personally, I would not approve again restoring bars on United States ships, even if authorized by law," he said. "Prohibition does not retard our bookings, and in many cases passengers with women and children prefer the American ships because there is no drinking at bars and there is no place on the ship that women and children cannot go."

Supper and Concert

A chicken supper and concert will be given for the benefit of Emanuel Baptist Church on East Union street on Thursday, September 15. The committee in charge is composed of Mrs. Wade, Mrs. Downer, Mrs. Whitte, Mrs. Washington and Mrs. Faulkner.

Leases Stores Here

Adeibert Feder Stores, Inc., of New York city, manufacturers, have leased the two stores, 250-252 Fair street, in the Courts Row, and will open a credit store there. The two stores will be converted into one and a new and modern front installed.

In Surrogate's Court

In surrogate's court in matter of judicial settlement of accounts of Clinton Van Baakirk in estate of Josiah Myer, Saugerties. Account of proceedings filed, and order made passing accounts. John W. Eckert, attorney for petitioner.

Drive for Funds Will Feature the Silver Jubilee

Executive Committee Decides to Conduct Campaign for the Raising of Funds for the Benedictine Hospital—Committee Will Select General Chairman and Outline Plans.

A drive for funds will feature the celebration of the twenty-fifth anniversary of the Benedictine Hospital, which will take place during the month of October. The date for the crusade, naming of the general chairman and other details of the drive now rests with the committee on plan and scope. This committee will make its report at the next meeting, which will be called by E. Frank Flanagan, temporary chairman.

The decision to conduct the campaign for funds throughout the county, the purpose of which is to relieve the sisters in charge of the Benedictine of their financial burden, which amounts to about \$200,000, was reached after lengthy discussion on the question. The motion for a drive to raise funds in conjunction with the silver jubilee celebration was offered by Professor P. H. Cullen, seconded by Thomas J. Comerford and unanimously carried.

Edward Coykendall appeared before the meeting and outlined the program used in the recent drives for funds for the erection of the Kingston City Hospital and nurses' home. The amount of pledges still collectible for the drive was dwelt on at length by Mr. Coykendall. It was the opinion of the speaker that these outstanding pledges should be considered before another drive was started as subscriptions would have to be sought from the same people, whose payments to the Kingston City Hospital fund had not yet been completed. In all fairness to the committee which was considering the drive, Mr. Coykendall presented the above facts so that consideration might be given the question of whether the time was opportune for another drive.

Professional Organizer.

Following the address of Mr. Coykendall, a professional organizer, who has had a wealth of experience in managing drives for funds throughout the country, presented his plans. The organizer gave a number of cases, which he considered more formidable than the one facing the Benedictine Committee, and in which he was very successful. Salient features of his management of a drive, were the printing of a newspaper, the selling of buttons and the elimination of suppers.

The newspaper would be printed six times during the course of the campaign and would carry only the news of the Benedictine, the purpose of the drive and other features that would arouse greater interest. The buttons would be sold at a small profit and would be a great medium in personally advertising the drive. Suppers which are usually served during a drive would be dispensed with. The card system for recording pledges would be used.

No decision has been reached on the securing of an organizer, this matter being held in abeyance until the selection of the general chairman.

In addition to the foregoing speakers others included the Very Rev. Dean Scully, the Rev. Gregory Mabry, Mayor Edgar J. Dempsey, James F. Dwyer, Vincent A. Gorman, Louis S. Coe, Harry E. Schirick, Patrick T. Murphy and Florian P. Wingert.

FLORIDA AVIATRIX STILL ENTHUSIASTIC OVER FLIGHT

Wheeling, W. Va., Sept. 14 (AP).—Backers of the proposed New York-Paris air trip of the Florida aviatrix, Miss Ruth Elder, today had not withdrawn their suggestion that the girl take part in the New York to Spokane air races and postponed her trans-oceanic flight until next year, but apparently had lapsed into silence in face of the young woman's determination and enthusiasm. It was reported, however, that a bonus such as was vainly offered to Bertaud and Hill, pilots of the ill-fated *Old Glory*, by William Randolph Hearst, had been offered Miss Elder and her copilot, George Haldeman, if they would postpone the flight.

ROYAL WINDSOR STARTS BACK TO WINDSOR, ONT.

Harbor Grace, N. F., Sept. 14 (AP).—The monoplane *Royal Windsor*, in which Phil Wood and C. A. "Duke" Schiller had hoped to make a transatlantic crossing, hopped off today for home, Windsor, Ont.

The disappointed fliers, who had held resolutely to their original plans in the face of adverse circumstances, were only dissuaded from their course by the plea of friends and the direct orders of their financial backers who feared that any attempt to span the turbulent Atlantic so late in the season would add new names to the growing list of aviators who have perished in the venture.

Two Ice Houses Burned

Two large ice houses owned by the Clermont Ice Company and situated on the river front at Hudson were destroyed by fire Monday with a loss estimated at \$50,000, partially covered by insurance. The origin of the blaze is unknown.

THE BIG REUNION.

There is another great movement of troops across the sea. It is the American Legion, many shiploads of it—veterans of the World War going to Paris by tens of thousands for a memorial festival and reunion with their war buddies of France. They go far more joyfully than they went in 1917 and 1918. They go over a sea where lurk no murderous submarines, to a land where there is no crash of big guns and air bombs. They go expecting a good time, and they will have it.

Fears of cold hospitality, of hostility, held more by their friends at home than by the doughboys themselves, may be dismissed. Socialists and Communists in Paris may fume and sputter, but it will matter little. A level-headed government will keep them in order, and they themselves will probably come to see the absurdity of their attitude. What have these Yankee doughboys to do with the execution of Sacco and Vanzetti, or any other class grievance, real or fancied, among French malcontents? They come in the spirit of friendship cemented by blood in a common cause, and as messengers of good will from a friendly nation, and will be accepted as such.

Depend on it, the American Legion will have a warmer reception even than Lindbergh did. For it will be not only a public uproar of admiration but a personal welcome, bestowed man to man, on the street and in cafes and halls and homes. It will be warm to start with, and grow warmer while the visit lasts, as guests and hosts renew and ripen acquaintance and talk of the past and enjoy the present and look into the future together.

That is a great peace mission, fruitful of better understanding between two great nations that love each other but sometimes get into temperamental difficulties. Bill and Jim and Jean and Pierre, reminiscing of the big war, will be good interpreters between America and France, between the New World and the Old.

MOTORING EXPENSES.

Road building and maintenance are expensive. Last year the American people spent for that purpose more than \$1,500,000,000. They spent a good deal more, though, for the purchase and operation of motor cars. For the last 10 years the average annual amount paid for new cars has been over \$2,000,000,000, and the total amount per year now spent for gasoline, tires and maintenance is said to be about \$6,000,000,000.

Thus it is seen that the cost of roads is only about one-fourth or one-fifth of the motoring bill. And if it were not as big as it is, the total motoring bill would be a good deal bigger.

In the case of an automobile, as everybody knows, "it isn't the first cost so much as the upkeep that counts". And the upkeep depends very largely on the roads over which the car is driven. Poor roads mean more gasoline, more tires, more repairs and shorter life for the car. A good road improvement usually pays motorists, in lowered automobile expenses, more than it costs, not to mention the added ease and pleasure of driving and the time saved.

ECONOMICAL HORSES.

Of course it is quite generally understood that the horse is a vanishing creature. He was bound to vanish because his upkeep was so expensive and because, unlike the tractor, he had to be fed whether he worked or not. Now the rural economics department of the Ohio experiment station says that east of the Mississippi, where farm tracts are smaller and often he can mow ground, the horse is indispensable and his upkeep cost is being slowly lowered.

At least, the department finds that in 1926 the average cost of the work of 63 horses on certain farms studied was 25.3 cents an hour, and in 1926 the cost of the work of 82 horses was 12.5 cents an hour. The annual feed cost per horse was \$175 in 1926 and only \$69 in 1925.

There is a slight catch in these figures. Some of that reduction in cost is due to the lower market values of

hay and grain. Yet the farmer must put about the same amount of time and energy into raising those feed crops for his horse, so that the lower cost is partly theoretical. It is urged, however, that there are other actual savings which go to make the horse increasingly economical and valuable as farm equipment.

IMMIGRATION CANDIDATES.

An American college president, traveling in the Scandinavian countries, is surprised to see the density of population there, and the resulting intensity of cultivation and the tendency to turn toward America. He finds that that tendency prevails in spite of the obstacles we put in their way.

Before we restricted immigration and put it on a national quota basis, 25,000 to 30,000 Norwegians came here every year. Now only 2,500 are allowed to come. But great is the faith and patience of the Norwegians. They have filled up their quota for the next 29 years, and are now registering their babies in the hope that when grown up they will be able to enter the United States.

The quota plan has been a good thing, on the whole, but it is unfortunate that it keeps out so many of the Scandinavians, who are usually thrifty, intelligent and law-abiding and make good Americans.

THAT BODY OF YOURS

CURING SKIN AFFECTIONS BY INSULIN.

It will be interesting to those individuals who suffer with various forms of chronic skin ailments to learn that something new has been found that may be of help to them.

You have seen cases of eczema that remained for years, making the individual's life most miserable indeed. Sometimes it would heal and remain so for a few weeks, only to break down again and be as unsightly as ever.

Similarly with boils. Some folks have regular crops practically all the time, being perhaps a little worse during the cool weather.

And pimples, or acne as it is called, is another bugbear of our young men and women just at the age when their appearance means so much to them.

That the diet is a big factor in causing these skin disturbances has been known for some years, and some individuals have worked out a diet for themselves that keeps them practically free from further skin irritations.

Cutting down on starches, sugars, which "heat the blood", is the general method adopted. This idea that sugar or starches, which are converted into sugar in the system, have something to do with causing skin troubles, has led investigators to try the insulin in these cases.

Accordingly the blood is examined, and if it contains more than the normal amount of sugar, that is sugar content is high, then insulin is used.

As you know, insulin is the substance in the pancreas which helps in the digestion and breaking up of sugar, so that it can be used as fuel in the system.

Where the pancreatic juice does not do its work completely, then some insulin, the juice from the pancreas of animals is used, and that is the reason that diabetes can now be controlled.

Dr. J. J. Darnet gives a history of 100 cases of eczema, boils, acne, and other skin ailments, in which insulin was used and "proved curative in many".

This knowledge is going to be worth much to many sufferers from skin ailments because trying to pick and choose, in your endeavor to locate what foods are causing the trouble, is a slow wearisome process.

Having the physician test the amount of sugar in the blood, and using insulin where it is too high, is a short cut, and will be a boon to the nervous system also.

TWENTY AND TEN YEARS AGO.

Sept. 14, 1907.—School No. 8 damaged by lightning.

Expected that final action would be taken by West Shore officials to have new freight station erected in Kingston.

Gallagher-Costello launched its first barge from shipyard at South Rondout ferry.

Charles H. Niles and Miss Mary Mower married.

Sept. 14, 1917.—The strike of the captains of the brick barges along the Hudson river was still unsettled.

Harold A. Styles and Copeland E. Gates were appointed army field clerks with rank of second lieutenant and ordered to report at Governor's Island for duty.

Board of Public Works started work of rebuilding Mill street of asphalt.

Sept. 14, 1917.—The strike of the captains of the brick barges along the Hudson river was still unsettled.

Harold A. Styles and Copeland E. Gates were appointed army field clerks with rank of second lieutenant and ordered to report at Governor's Island for duty.

Board of Public Works started work of rebuilding Mill street of asphalt.

NEW PALTZ.

New Paltz, Sept. 14.—Mr. and Mrs. Jacob Elting, Jr., and family of Pittsfield, Mass., spent the week end and Labor Day with Mr. Elting's parents on Academy street.

Dr. Caroline Finley, who has been spending a five weeks' vacation in New Paltz, has returned to New York city.

Dr. and Mrs. Lawrence H. Van den Berg, Miss Dora Van den Berg and Larry Van den Berg have returned from a visit to their daughter, Janet, in Marshall, Mich.

Mr. and Mrs. Fred Thorpe, son and daughter of Flushing, Long Island, returning from their summer camp at Lake George Wednesday, stopped over at New Paltz to visit Mr. and Mrs. George Doxey.

Mr. and Mrs. Frank Van Sickle and Mr. and Mrs. Millard Roosa gave the Sprague family a theatre party at the New Paltz Opera House last Saturday night in honor of Mrs. Moses Sprague's birthday.

Mr. and Mrs. Watson Elting have returned from a vacation of which a week was spent in Asbury Park and the remainder visiting their daughters, Mrs. Louis Putscher of Elizabeth, N. J., and Mrs. Wentworth Post of Irvington, N. J.

Mrs. Westervelt, who was Miss Mabel Clark, is spending a week with Mrs. Rudolf DuBois, Messrs. DuBois and Westervelt are enjoying a week of sea fishing at the Westervelt camp at Long Island.

Mr. and Mrs. Hale and their daughter, Margaret, and Martin Downs of York, Penn., are visiting Mr. and Mrs. Emory G. Jacobs.

Mr. and Mrs. M. Gardner entertained their son, Sommers Gardner, the past week.

Mrs. Carlie of Poughkeepsie spent several days recently with Mr. and Mrs. Daniel A. Hasbrouck.

Mrs. E. J. Palmer, Allen Palmer and his family have lately been visiting in New Paltz.

Mr. and Mrs. W. Crispoll of Philadelphia are guests of Mr. and Mrs. Irving Bullis on Church street.

Mrs. Brainard Canning and daughter of Weehawken Heights, N. J., are spending a week with Dr. and Mrs. Branner.

Miss Florence Wicks has returned home after spending several weeks in Mt. Vernon and vicinity.

Mr. and Mrs. Irving LeFevre have moved to Poughkeepsie where Mr. LeFevre is instructor in manual training.

Mrs. Arthur Pope of Newark has been spending a few days in Hurley and New Paltz.

A party composed of Oscar Parlieman, Clayton Juckett and their families and friends picked Labor Day in Miss Jamison's woods.

Leroy Evans and son, David, and Mrs. Anna Evans enjoyed visiting their old friends in town the past week.

Mr. and Mrs. W. Feeter and Miss Raymond of Highland called on friends in New Paltz Wednesday evening.

Mr. and Mrs. Watson Elting entertained over the week end a house party composed of their daughters and sons-in-law, Mr. and Mrs. Ernest Fisher of Albany, Mr. and Mrs. Wentworth Post and daughter, Jane, of Irvington, New Jersey, and Mr. and Mrs. Louis G. Putscher of Elizabeth, New Jersey.

Mrs. Walter Shipman, with her little daughter, have been spending some time in New Paltz with her parents, Mr. and Mrs. Perry Deyo.

On Labor Day they were joined by Mr. Shipman and they have now returned to Brooklyn, accompanied by Mr. and Mrs. Deyo.

W. S. Haight made a trip from Staten Island to his home on Labor Day and returned Tuesday, expecting to remain at the Farm Colony from two to four weeks longer.

Miss Louise Eltinge spent the week end at the Locusts.

Miss Margaret Hasbrouck entertained a few of her friends Thursday afternoon and evening.

Mr. and Mrs. Irving Hahn and Daniel Hahn, Jr., of Jersey City, N. J., have been visiting Mr. and Mrs. Irving D. Kortright on Elting avenue.

Mr. and Mrs. Charles Schilling have returned home after spending the summer at Cape Cod.

Mr. and Mrs. Albert Leighton have been visiting Mr. and Mrs. William Bleecker.

Mr. and Mrs. George Doxey have returned from a three-days' motor trip to Lake George. Miss Elizabeth LeFevre was their guest for the trip.

Miss Sarah Kimble has returned to Long Island, where she resumes teaching.

Mr. and Mrs. George Benjamin entertained friends from Briarcliff over the week end.

LOOK AND LEARN.

By A. C. Gordon.

1. What is the printer's unit of measurement?

DAILY LESSONS IN ENGLISH.

By W. L. Gordon.

Words Often Misused: Do not say "I am telling you so you will understand". Say "so that".

Often Mispronounced: mezzanine; the I as in "dia", or as in "police".

Often Misspelled: movable, no e after v.

Synonyms: disperse, scatter, disseminate, spread, diffuse, distribute, disperse, disband.
 Word Study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: PERTURB; to agitate; disturb, disquiet. "Do not allow these many duties to perturb you".

MOMBACCUS CENTER.

Mombaccus Center, Sept. 14.—Several in this neighborhood have not yet completed their harvest, owing to the rains.

The Blumling rooming house closed for the season on Sunday. J. M. Herring took the family to Kerhonkson enroute for New York city where they will spend the winter.

Not many of the city people are left in this little hamlet.

School in this district commenced Tuesday with Mrs. Doyle of Kerhonkson as teacher.

Mrs. Elting Churchwell and little daughter, Grace, visited her aunt, Mrs. Henry Kipm, in Tabasco on Wednesday.

Mrs. Elting Churchwell was visited on Sunday by her mother and sisters of Ellenville.

F. Lounsbury has had a new roof put on his house.

Mr. and Mrs. Miller and son, Morris, of Kerhonkson, called on Mr. and Mrs. J. M. Herring on Sunday.

C. White and Russell Gray called on J. M. Herring on Sunday.

Mr. and Mrs. Elting Churchwell and daughter, Grace, visited Kerhonkson on Tuesday.

IDEAL PARK.

Ideal Park, Sept. 14.—Mrs. Mattie Tobey and daughter, Edyth, of Kingston were guests at their bungalow on Sunday.

Ed. Matthews of Kingston spent Monday night at his camp here.

Mrs. Bell Lane and son, Herbert, of Wilbur were callers in this place on Sunday.

Mrs. Frank Tobey of Hurley, N. Y., spent a few days at her cottage here, returning home on Sunday.

Mr. Imray of Brooklyn, N. Y., now at his summer home here with his family, had the misfortune to sprain his ankle by a fall one day recently.

Mrs. L. E. DeVall and family entertained a party of friends from Albany over the week end.

Mr. and Mrs. Frank Diehl and family of Flushing, L. I., returned to their home on Saturday.

Mr. and Mrs. William Riley and family motored to Troy on Friday, returning here on Saturday night.

have been visiting Mr. and Mrs. William Bleecker.

Mr. and Mrs. George Doxey have returned from a three-days' motor trip to Lake George. Miss Elizabeth LeFevre was their guest for the trip.

Miss Sarah Kimble has returned to Long Island, where she resumes teaching.

Mr. and Mrs. George Benjamin entertained friends from Briarcliff over the week end.

TEN YARDS TO A CUSTOMER.

Woodstock Is a Growing Resort

About eight hundred tourists and summer people have left Woodstock for Labor Day, but others, who are the autumn weather, are coming, and the inns are slowly filling again. Woodstock has had the most prosperous summer in its history. The last days of August the post office there was serving between 300 and 3,500 persons. Now it is serving about 2,800.

A very noticeable feature of the summer visitors was their demand for better accommodations and modern improvements. They were willing to pay the extra cost. Therefore, all the new houses and studios are incorporating these changes. In the future no more houses will be built unless with plumbing and heating.

A movement is under way for a golf and country club. It seems likely to come to something. About fifty have signed their desire to become members. Several sites have been suggested. A meeting was held on Sunday last at John Farson's at which the subject was discussed. Several were in favor of buying a tract at Lake Hill, but this is considered too far from the center of things at Woodstock.

But Woodstock is distinctly on the upgrade, and it is likely to become the gentle center of the Catskills.

SHOW COURTESY TO THE VISITING MOTORIST

Don't "bawl out" the visiting motorist when he commits a breach of traffic etiquette. Instead, if the opportunity presents itself, acquaint the stranger with the regulation he violated.

This is the advice given by Benjamin Susskind, secretary of the Automobile Club of Ulster county, 182 Broadway, who points out that too many motorists show an intolerance for the motor tourist's violations where courtesy is absolutely essential. In theory, we all agree that street and highway courtesy are very desirable. Even the motorist who bellows in rage when he sees himself delayed or endangered by another driven will admit the advantages of kindly helpfulness in the abstract. In the concrete, however, it seems an entirely different thing.

If we are going to have courtesy, we may as well start in the case of the motor tourist. In every city, there are local regulations designed to meet peculiar conditions with which the traveler could not hope to be familiar. He may violate such a regulation. In such a case, it is not the duty of the local driver to assume the right to "bawl out" the other man. Instead, the one familiar with the traffic code should set the other right. He should do so calmly and kindly, and if he does the action will reflect favorably upon all local motorists.

Every city boasts that it extends hospitality to the outsider. As dwellers within the community, individuals pride themselves on their town's attitude. One good way to prove the sincerity of such a boast is to show genuine courtesy to the motorist whose car bears strange license plates. There is no better place to start true hospitality than in this period when millions are making motor tours.

Mrs. Boice Returns Home.

Mrs. Kathryn D. Boice of Fair street, who has been spending the summer in California and throughout the far west, has returned home reporting a most delightful trip. During her stay in the Rocky Mountains she encountered two snow storms, and one severe hail storm, otherwise not a bit of rain was encountered the entire summer. There were twenty-six persons in the party who occupied a private car throughout the entire trip, seeing the sights in 19 different states and provinces of Canada. Among those of the party were Mrs. Boice's niece, Miss Dorothy Hommel of Floral Park, and the Rev. and Mrs. Theodore Bayles of Waldron, N. Y.

Shows the Flaws

The finer the nature, the more flaws it will show through the clearness of it. And it is a law of this universe that the best things shall be seldomest seen in their best form.—John Ruskin.

Eleanor Gunn Says

New York—While there is certainly nothing new about using the reverse side of the fabric as a trimming, fall fashions make a feature of this idea. There are numerous models that combine the dull and shiny surfaces of a satin crepe.

Although tunics have become noticeably elongated, Bernard adopts the tuck-in blouse with considerable success as a fitting companion to the two-piece suit.

Coats that are wrapped, or dragged, about the figure are still featured, and many have this line accentuated by diagonal and other extraordinary uses of fur.

Full skirts, many of which dip at the back, are being accepted as one of the leading silhouettes for evening.

The Brandt collection is distinguished by the number of cape back coats and the partiality for diagonal lines, although this feature is not peculiar to this house alone.

Three-quarter length coats that barely conceal the new length tunic are exploited by Bechoff and others.

Wine, cherry, Malaga, and pomegranate are among the new sports wear shades, but are by no means confined to this sphere.

List stockings in novelty effects have won favor for sports and will continue to be worn this fall. (Copyright, 1927, Metropolitan Newspaper Service, New York).

OUR DAILY PATTERN.

A Simple Dress Style for a Little Girl 5876. Pongee, linen, gingham, or cotton print will be very desirable for this design.

The pattern is cut in three sizes: 2, 4 and 6 years. To make the dress for a four-year size will require 1 1/4 yard of 36-inch material. For trimming as illustrated 1/4 yard of bias binding is required.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice. Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1927 Book of Fashions showing color plates, and containing 500 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

LEAGUE TOLD THAT MOVIES ARE BAD FOR CHILDREN.

Geneva, Sept. 14 (AP).—Motion pictures, even of an educational or informative character, are fundamentally bad for little boys and girls, in the opinion of Senator Labrousse of France.

Speaking before the committee of the League of Nations Assembly which deals with child welfare and other humanitarian problems, he endeavored to prove that the laughs heard in the cinema palaces are of a nervous, hysterical character, that the flickering films bring on, somnolence and that intermissions should be longer to enable the spectators to recover from their optical and emotional fatigue.

SAMSONVILLE.

Samsonville, Sept. 14.—F. N. Davis was home from Poughkeepsie on Labor Day and with the men of the church put a new roof on one side of the church.

Next Sunday, September 18, in the afternoon a missionary is expected to preach. O. O. Rice had service on Sunday evening, September 11.

Albert, Daisy and Marie Myers went to New Hamburg on Sunday.

Mrs. M. M. Harkness of West Shokan and Mrs. Sarah A. Smith of Hoboken have been visiting friends here at Arthur Barringer's, Freeman Every's and spent Sunday with Mrs. Berier returning at night to J. Polinsky's.

Mrs. D. C. Van Etten called on Mrs. Berier one day recently.

Mr. and Mrs. Reginald Davis and family have moved to the Pessener place for the winter.

Maudie Shurter of Kingston was up to visit her parents on Labor Day.

Leah Shurter visited her sister, Esther, in Columbia county, returning home on Monday.

Elsie and Evelyn and Laura Davis called at H. L. Myers on Monday afternoon.

Daisy Myers is spending some time with her sister, Hazel, at New Hamburg.

A "Rolling" Mill

Rollers for both men and machines are lightening the work in a modern industrial plant. Light machines, caterpillar-mounted and motor driven, are wheeled to the point where they are most needed. Packages in the shipping department are handled by boys on roller skates. Even the plant library is on wheels and visits each department at regular intervals.

Fall Fashions in Paris Limelight

Few Changes Proposed by Designers; Crepes, Velvets Are Favorites.

In these the most important days of the fashion year Paris is a scene of frantic excitement, for the doors of those mysterious regions where the mode is made are swinging wide and we learn at last the aspect of the autumn season.

In the confusion, observes a Paris fashion correspondent in the Philadelphia Ledger, there is great difference of opinion as to the general effect, some houses showing a new silhouette and slightly higher waistline, others avowing that there is and will be no change in line, and as in the case of one prominent designer, only changing the plan of the design inside the silhouette.

The effect of the latter collection may be summarized as sophisticated simplicity, with a decidedly modern air feeling in decoration, quantities of applique and incrustations in very modern flower designs being used.

Diagonal and converging lines, developed by tucks, seams, plaits and applique, carry out his ideas of symmetrical design. Many models consist of any number of sections cleverly combined, the lines converging just above the hip line on one side. The waistline remains for the most part low, but varies slightly. There are quantities of belts in his collection, used on dresses for all times of day.

The favorite daytime materials are crepes, velvets, both plain and printed in small designs, and satins with the dull and shiny sides combined. For evening there is much silk lace of small design, chiffon and georgette.

The general length of the skirt remains unchanged but varies according to the type of gown. Great attention is paid to neck lines, the square being particularly favored, and many evening gowns have a deep pointed décolletage in back.

Sleeves are for the most part long and tight, except those of evening wraps, which have huge novel sleeves with cuffs of fur.

The colors of the collection above mentioned include new and hitherto unimagined greens, blues and blue-greens verging on peacock. There is some rose and a new light red very like pomegranate. Pale maize is a new note for evening. For sports wear, there are new neutral-toned ensembles, the sweeter blouses blocked in a cubist pattern looking like solid wool embroidery in three tones, the top coats fur-collared.

All shades of gray are in evidence and frequently several combine in one dress or ensemble, and gray also combines with black. There is much black, both for afternoon and evening, with touches of diamond embroidery or a single jewel.

Afternoon ensembles often consist of a velvet coat cut on straight lines and collared with lynx or fox and a satin or crepe dress in a lighter shade of the same color.

Many houses feature drapery, usually on the side in a puff or cowl at the hip line, as in the frocks of Cyber. Nearly every house shows more flare in skirts, achieved by panels, godets, circular sections, flapping and tiers.

The uneven hemline is also fairly prevalent. Another shows models with circular flares much larger on one side than on the other. Still another favors the higher waist, approaching the normal.

Fall and Winter Coat, Kashmir Cloth in Gray

Showing a charming fall and winter coat of kashmir cloth in gray, with shawl collar and cuffs of gray dyed kid fox fur.

Neutral Colors Favored for Golfing in Paris

Love of golf does not exceed love of clothes with French women.

This season French women golfers make neutral colors the basis of their costumes. A visit to St. Cloud, St. Germain or any fashionable course near Paris shows a preponderance of beige and gray. An occasional bright sweater lights up the links, but hats, stockings and skirts are in neutral shades as a rule.

ELEANOR GUNN ON FASHIONS

THE FALL COAT MAY BE OF TWEEDE, QUILTED VELVET, OR A HOST OF OTHER THINGS

New York—With the advent of fall, one needs a coat. And coats are made in their variety and, for the most part, interestingly different.

There is the introduction of the robe, an old-time favorite. There is an element of the unexpected too in the shoulder-line, for this may seem to go on as a tangent, since it so frequently has some sort of sun-ray applique, or some diagonal arrangement of tucks or folds. There are raxian shoulders, and small arm-holes, some low arm-holes, with others normal. There are collars that refuse to lie down, and all manner of new ways of binding and banding with fur.

The safest choice of silhouette, for a coat at least, is the straight one, although several good-looking models flare very prettily. Some, following the approved dress line, are irregular; in fact, decidedly one-sided in treatment.

A Coat of Tan Cloth Is Trimmed with Appliques of Brown and Red Suede. Radiating Tucks from the Shoulder Introduce New Lines of Smartness.

The length preference is about three-quarter, and one may or may not select a belted model. The belted coat, because of past association, is inclined to have a less formal effect.

Drecol makes excellent use of all-over quilted velvet for coats of a certain type. Tweeds strike a practical note, and fur-lined coats seem in all likelihood to be accepted without reservation as smart for travel.

A lavish use of fur, or none at all,

Embarrassed by perspiration odor?

This purifying toilet soap keeps you safe

UNFORTUNATELY, one rarely knows when one offends. Careful as you are, aren't there times when you feel a little uneasy lest this unpardonable fault may mar your charm?

Perspiration odor is a serious problem for all of us. Even when we do not seem to perspire at all, the pores continually give off odor-causing moisture.

Why, then, risk embarrassment when it's now so easy to keep safe? Simply change to Lifebuoy! So refreshing that millions bathe with it every day. It purifies pores—gives

freedom from perspiration odor.

Complexions healthier. Lifebuoy's mild, antiseptic lather keeps complexions clear, fresh, and glowing with health by purifying the skin.

Best of all, it safeguards family health—removes germs! You'll learn to like Lifebuoy's clear, hygienic scent—so wholesome, so assuring of greater safety, yet so quickly vanishing.

Lifebuoy costs no more than other soaps. "Use it a week and you'll use it for life." Get some today!

Lever Bros. Co., Cambridge, Mass.

LUNCHEON DISHES

Mystic Reed, who did not practice what she preached, said: "Judging by the various books on the subject of luncheons, people do not eat at noon unless they have company." This is probably true, especially among women in families where the man of the house takes his noon meal downtown. The housewife, even if entirely alone, should have a hot dish and sit down to eat it.

Mystic Reed continues: "People who do not take time to eat and sleep, presently are obliged to take time to die. Those who from false notions of economy live upon improper food, are shortly put to the greater expense of a funeral. It is better to spend money on fruits, vegetables, milk and eggs than upon wreaths and gates ajar. The one who leads the procession, with his friends riding behind, might better have postponed this particular entertainment for a few years and in most cases it could be done by taking more time to live while engaged in the business of living."

Tongue.—Tongue makes a most acceptable meat. If lightly corned or fresh it is equally delicious. Boil it tender, then remove the skin and serve thinly sliced with a tongue sauce or with a rich brown sauce with a half cupful of chopped raisins added. Cooked in the oven covered with chopped carrot and celery until the vegetables are tender, using some of the broth, is another most delicious method. Serve hot with the vegetables.

Luncheon Dish.—Butter squares of bread and lay in a baking dish with a layer of hard cooked eggs cut into eighths, sprinkle with cheese and place another layer. Pour over a cupful of milk to which has been added one egg; beat the egg lightly and mix with the milk. Bake in a moderate oven until the custard is set. Serve hot. Cold cooked macaroni is very nice prepared in this way with hard cooked eggs and a thick white sauce or custard.

Nellie Maxwell

They're Not Ferocious

Tiger moths are so called from the beauty of their variegated coloring, says Nature Magazine, and not from any ferocious tendencies. They are contrastingly spotted and branded or pure snow white.

seems to be the dictum. Effective combinations of cloth and such pelts as pony, calf, and antelope are being developed, while the tendency, generally speaking, is for contrast in trimming, this applying to fur as well as cloth coats.

DADDY'S EVENING FAIRY TALE

by Mary Graham Bonner

RAVENS

Some white-tailed eagles were boasting one day of their bravery. They were also saying how fine they were in every way and that their very name meant something splendid and free and strong.

As a matter of fact, though the white-tailed eagles would admit it, they are less brave than any of the eagle families.

The ravens are not kindly at all and they love to fight.

They had often thought it would be great sport to have those "silly white-tailed eagles," as they called them, admit that they were not brave and have their leader beg for mercy from General Raven.

And, as you can imagine, when Brother Black Raven heard the eagles boasting, he knew it was high time to begin and frighten them.

So he called all the ravens together. Some of them were having their naps, but as soon as Brother Black Raven called them up they got in a great hurry, spread their wings and drilled a little bit just like soldiers.

Only instead of marching, they flew. As General Raven came near the nest of the white-tailed eagles, he said in a very queer, croaking sort of voice:

"Good-morning!" That was rather mean of him to say, for, of course, he

He Called All the Ravens Together.

didn't really wish them a "Good-morning."

"Do you want to fight?" asked General Raven.

Still not a sound from the eagles.

There was a slight flutter and trembling, which the ravens could hear and which made them grin with delight, but the eagles never said a word. They didn't even look at the ravens!

For they were so frightened they didn't dare look at them, and they kept thinking:

"Oh, won't those awful ravens and their ugly old general go away?"

The eagles, of course, thought the ravens were very ugly because they were so afraid of them.

"For the last time, do you want to fight us, eh?" asked General Raven.

And still the eagles said not a word—nor made a sound.

"Well, let me say then, for all of us," said General Raven, "that we think you're very cowardly, and we heard you talking before we came of your bravery."

"We wouldn't fight you because you're afraid of us, but you'll have to admit it after this," and with a deep chuckle, off went General Raven and his followers.

The eagles did not go on boasting, but they were very contented that the ravens had gone away!

"Musical" Blind Man's Buff

One of the players is blindfolded, and placed with his back to the players. Now all the players arrange themselves in line behind him, and someone sings the first line of any song. When this line is finished the blind man makes a guess at the identity of the singer. If it is correct, then the singer must take his place, and someone else sings a snatch of a song.

This is an amusing game, as, although it is seldom difficult to recognize a person's voice, when one sings the voice may sound rather different. It is a test to see whether one does really know the voices of one's friends—or rather, the singing voices, for there are people who seldom sing.

One Way

Teacher—How would you practice economy, Johnny?

Johnny—Well, for instance, by not letting our mothers wash our hands and necks we could save soap.—Christian Science Monitor.

Modern Grammar

The Master—Tell me what tense it is when I say, "I love, you love, he loves."

A Voice—That's one of them eternal triangles.

Lindbergh's Good Example

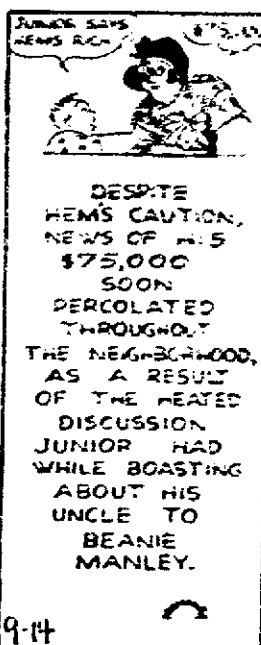

Little boys who hope to become great men will remember that one of the few things Lindbergh took with him to Paris was a toothbrush.

Robert's Composition

Teacher—Robert, give me a sentence using the word "pasture."

Robert—I went past your house last night.

GAS BUGGIES—Private Capital?

DESPITE HERM'S CAUTION, NEWS OF HIS \$75,000 SOON PERCOLATED THROUGHOUT THE NEIGHBORHOOD, AS A RESULT OF THE HEATED DISCUSSION JUNIOR HAD WHILE BOASTING ABOUT HIS UNCLE TO BEANIE MANLEY.

IMAGINE, MERTON MANLEY, \$75,000. IS THERE NO JUSTICE IN THIS WORLD... AND THEY SENT THAT BRAT, JUNIOR, AROUND TO BRAG ABOUT IT TO OUR BEANIE. ON THE AIRS, HE'LL PUT ON...

I'VE GOT AN IDEA. YOU'LL NEED A NEW CAR, SO I'LL TIP OFF ALL THE DEALERS. THEN WE WILL CUT IN ON A COMMISSION NO MATTER WHICH BUS HE BUYS.

MEETA TOLD ME HE'AS \$75,000 IN THE BANK... AND YOU THE FINANCIAL WIZARD, CAN'T MEET THE PREMIUM ON YOUR INSURANCE POLICY.

OH, I'M NOT SO DUMB... LISTEN, I'LL PUT THIS UP TO THE COMPANY. IF THEY'LL MAKE MINE A PAID-UP POLICY, I'LL GIVE THEM THE NAME OF A PROSPECT!

YES, SIR, \$75,000. THERE, MARCUS BRUTUS, IS YOUR CHANCE. HE'AS CAN'T REFUSE TO BUY A WASHING MACHINE NOW... GET YOUR BRIFCASE AND SKIP RIGHT OVER...

I HAVE TO CALL UP FIRST. I'M A HIGH-CLASS SALESMAN. I ONLY SELL BY APPOINTMENT. WHAT'S HIS NUMBER?

MARLBOROUGH

Marlborough, Sept. 14.—Miss Anna Dearin and Mrs. Alida Hughes of Poughkeepsie spent several days the past week with Dr. DuBois Tooker and his sister.

Mrs. Alida Lyons of Bloomington, N. J., is visiting her sister, Mrs. Jesse Mastin, on Grand street.

Mr. and Mrs. Fred Benton and son spent the week end with Mrs. Benton's mother, Mrs. Townsend, in Brooklyn.

Mr. and Mrs. Frank Sands attended the State Fair in Syracuse.

Mr. and Mrs. Harry Lyons and son, Harry, and Howard Johnston are on a motor trip to Niagara Falls.

Miss Frances Casey of Haverstraw spent the week end at her home here.

Miss Rosamond Klenck and Miss Hattie Valentine spent a few days the past week with the Rev. and Mrs. Montrose at Spencertown, Columbia county.

Miss Ethelyn Warren spent the week end at the home of Miss Grace Chidley in Middlehope.

Mrs. McNamara and son of Brooklyn spent the past week at the home of Mrs. C. H. Barry.

James Hunter was second in quill pitching for the championship of the state at the Dutchess County Fair.

Mr. and Mrs. Frank Hannigan were the guests of Mrs. Mary Hannigan in Newburgh Friday evening.

Mrs. Philip Kennedy and daughter of Newburgh called on friends Thursday.

Week-end guests of Mr. and Mrs. Calvin Staples were Mrs. Staples' sister, Mrs. Wendenbine, and Mr. Wendenbine and son of Albany.

Mrs. M. C. Cavell and little son, George Robert, returned home the past week from Brooklyn, Iowa, where they spent the summer with her parents.

The many friends in this place were saddened by the news of Ralph Crowell's death Saturday at Milton. Sincere sympathy is extended his bereaved mother, brother and sister.

Young people of this place who will enter institutions of higher learning this fall will be Harold McCourt and Bernard Hirberich, graduates of the Marlborough High School, class of '27, Fordham University; the Misses Ida Conn, Kathryn Cumiskey and Grace Lockwood, New Paltz Normal

School. Ralph Lockwood of the Marlborough High School graduating class of '25 will enter Colgate College to take up a pre-medical course. For the past two years he has been attending Newburgh Academy. Miss Virginia Baxter and Miss Mary Dowd are continuing their courses at New Paltz Normal School. Miss Baxter is at present teaching in Newburgh to acquire the practical part of her course.

A large number attended the clam-bake held by the Elks in Newburgh Sunday.

Miss Sarah Newell with friends from Newburgh motored to Catskill Sunday.

Lumont Lane of Teaneck, N. J., spent the past week with his cousin, George Lane.

Mrs. B. F. Cecire is visiting her brother, C. H. Yeade, in Woodland, N. Y.

Mrs. Jennie Lowry of the school teaching staff and her daughter, Doris, are staying with Mrs. William Mackey.

Mr. and Mrs. H. E. Tuthill returned home last week after spending several days at Princeton and Suffern, N. J.

Mrs. A. E. Beljean is spending a few weeks with her daughter, Mrs. O'Neil, at New Jersey. Mrs. Beljean is recovering from a nervous breakdown.

Mr. and Mrs. Leon Gillespie and family and Mr. and Mrs. Benjamin Henderson and family of Gladstone, N. J., were the guests of Mrs. Clara Selden on Sunday.

Mrs. Rita Hutchins of New York is visiting her son, D. S. Hutchins.

Miss Anna Hughes of Arlington spent the week end at the home of her sister, Mrs. Williams Burrows, Jr. James Shurter, Sr., is ill with grip.

Miss Catherine Masey of Newburgh is spending two weeks with relatives here.

Allen Hutchins of Brooklyn is spending two weeks with his uncle, D. S. Hutchins.

The Women's Auxiliary of Christ Church met at the rectory Tuesday afternoon and planned two events for the future. The first will be a missionary meeting at the Dudley residence in Bainville Tuesday, October 4.

It is expected that the members of All Saints' Church Milton, will attend the meeting as well as the organization of Christ Church. A special missionary speaker will be at the meeting and tea will be served. The second event will be a social at the home of Mrs. James Haberle on Wednesday, October 19, the proceeds of which will be used to repair the stained glass windows of the church.

PRIZES FOR HIGHWAY SAFETY SUGGESTIONS.

Prizes totaling \$1,000 were offered today by the American Road Builders' Association for the best ideas for reducing the number of highway accidents occurring each year. The contest, which is being held in connection with a national safety campaign, is open to everyone. It will close midnight November 15.

More than 114,000 persons have been killed and nearly three and a half million injured during the past five years as a result of highway accidents, the association stated in explaining the need of such a campaign. Last year the accident toll was 25,302 killed and 759,060 injured, and the economic loss resulting from accidents was \$638,875,500. These figures have been mounting steadily for five years.

The American Road Builders' Association, which is the world's largest organization representative of the highway industry, has inaugurated its safety drive in an effort to start the accident figures on a downward path. The contest, designed to bring out new ideas for safety, is an important part of the campaign.

First prize in the contest is \$500. There will be nine other prizes, totaling \$500. The awards are offered for "the best workable plan that will decrease street and highway accidents. The plan," the association explains, "may be a complete comprehensive thesis covering the entire subject or a mere description of a single idea that would contribute to highway safety. The plan must be practical and capable of being put into operation at reasonable expense."

Winners will be announced in the press and by radio January 11, 1928, during the annual convention and road show of the association in Cleveland January 9 to 13. A report compiled from the ideas submitted for the contest will be presented to the convention.

Lifting by Vacuum

The magnetic crane lifts heavy metal weights by magnetism of an electric current passing through a suitably shaped plate, but this scheme applies only to certain metals so that things must be employed in handling other material and much time and labor consumed in preparing the articles for the lifting operation. A system of vacuum cups is now employed for this purpose and the efficiency is remarkable.

TO FATHERS of large families—

I noticed that Fred Emery—after the first few puffs—was looking sadly and doubtfully at the cigar I had handed him.

"Don't you like it?" I asked.

"I like it too much," said Fred solemnly. "But the expensive cigar habit is one thing I can't afford—not with those five hungry children of mine to feed."

"But that's Peter Schuyler Victor," I answered him. "That rich, mild, expensive cigar flavor costs just what you're used to paying—10 cents."

If you're particular, you'll enjoy your Victor's more if you buy the 5-pack—a pocket humidor which keeps five Peter Schuyler Victor's fresh and unbroken.

Superba 15c | Perfecto 10c | Victor 10c | Brief 5c | Old Moments 5c (full-wrapped) 12 for 25c | 10c | 5c | 5 for 15c

Loose or in Handy Packs of 5 or 10

And when a dime is too much—

A whole of a pack at a 5-cent price—Peter Schuyler Victor, a slightly milder cigar, selling for 5 cents. Priced to low-income smokers from the short end of the line. For our more expensive cigars.

Mild

Matters Before The Surrogate

In Surrogate's court will of Hester C. Sebeck, town of Shandaken, admitted to probate. Letters testamentary issued to Herbert C. Sebeck and Helen M. O'Brien, son, and daughter. Value estate \$10,000 personal; \$5,000 real. Son and daughter sole legatees and devisees. John W. Eckert attorney for petitioners.

Will of Louis A. Sully, Woodstock, admitted to probate. Value of estate more than \$10,000 real, more than \$10,000 personal. Letters testamentary issued to Washington L. Dulaney and William T. Dulaney brothers. There is bequeathed \$50 for care of plot in St. Mary's Cemetery, Kingston, where Daniel Sully is interred; \$50 for care of plot in Woodstock cemetery where the deceased is buried; life use of farm, dwellings, bungalows, barns, etc., to brother, Washington L. Dulaney; burial plot in Woodstock cemetery to brothers; to two nieces, Louise, Olson, Louise Arzina Dulaney, two shares Central Hudson Gas & Electric Corporation stock; one share each to friends, Joseph M. Fowler, Thomas Comerford and Ira V. D. Warren of Kingston; personal effects to brothers William T. and Washington L. Dulaney; remainder of Central Gas & Electric Corporation shares and Savings and Loan Association stock and rest and residue of estate in trust of executors and trustees to pay income to brothers who are the executors and trustees. Fowler & Connelly attorneys for petitioners.

Thinking Hurts

Thinking is the hardest thing we do. Few can stand it, that's why there are more lazy minds than lazy muscles. George Barton Cutton, president of Colgate university, tells us not to worry because people don't think much. It's the newest and most difficult of arts. Nobody can keep it up very long. It hurts. We have to be patient with everybody—including ourselves.—Capper's Weekly.

SOUTH ROUNDOUT.

South Rondout, Sept. 14.—The Rev. Leon Booth of Haines Falls preached a very helpful and interesting sermon Sunday evening. Miss Julia Meyers sang a solo, "Plains of Peace."

There will be a business meeting of the Ladies' Aid at the home of the president, Mrs. John Voight, Wednesday evening.

Mr. and Mrs. Fred Fox of Weehawken have returned home after spending a week with her parents, Mr. and Mrs. Liberty Hyde.

Miss Marie Cockfair, Janette Valentine and friend of Hollis L. I. spent the week end with Mr. and Mrs. Edwin Marchant and family.

Florence Haines of Haines Falls spent the week end at her home here.

Wallace Boyce motored from New York on Saturday. Mrs. Boyce and daughters, Helen and Jean, returned home with him on Sunday after spending two weeks with her mother, Mrs. Isaac Hotelling.

Dorothy and Marian Hicks of Kingston spent Sunday with their grandparents, Mr. and Mrs. Charles McDonald.

John Meyers of New York is spending a few days with his wife, The Misses Emma and Julia

Meyers returned home after visiting their brother, Herman Meyers, and family.

Mrs. Edwin Haines motored from Haines Falls Sunday evening and attended the church services.

Mr. and Mrs. John Gurney spent the week end with relatives and friends at Woodstock.

Mrs. John Biel has returned home after spending a week with her parents, Mr. and Mrs. Ira Hyde.

Miss Antonette Cole has returned home after spending the summer at Sunset View House, Haines Falls.

Mrs. Frank O'Neil and son, Robert, have returned home after spending the summer with her mother, Mrs. Barbara Lauer.

DAILY RADIO PROGRAM

Thursday, September 15.

The Kingston Daily Freeman, a double-page spread, is the first of its kind in the history of the newspaper. It is a new and unique feature, and is a most interesting and valuable addition to the paper. It is a most interesting and valuable addition to the paper. It is a most interesting and valuable addition to the paper.

Milk Sold Here Up to Standard

According to the August tests of the milk sold in Kingston, the milk met the required standards of the board of health. The report of the tests, which were made by Miss B. Eleanor Easton, of the city laboratory, was submitted at the regular monthly meeting of the board of health Tuesday evening at the Central Fire Station.

The report in full follows:
Certified that more than 10,000 gallons of milk were sold in Kingston, N. Y., during the month of August.
Grade A. Not more than 20,000 bacteria per cc. allowed:
Habeck Farms 12,000
Habeck (Others) 21,000
Beatty 2,400
Hrabant 11,000
Boice 7,800
Crescent Farms 5,200
McSpirt 15,400
Hadden 28,000
Pasteurized—Not more than 30,000 bacteria per cc. allowed:
Adin 12,300
Rack 2,200
Habeck Farms 3,800
Clov 2,000
DeForest 3,000
Joyce 5,400
Kingston Milk Exchange 2,200
Kingston Creamery 10,000
Kingsford Farms 16,800
Leding 28,000
Modica 22,600

PHOENICIA.

Phoenicia, Sept. 14.—P. Leming is getting over a bad cold.

Mrs. Alshemer and Miss Alice, Mrs. W. J. McGrath are spending a few days in New York city.

Naomi Teckella, who has been taking lessons in two school subjects of Mrs. A. Perry Loomis during the summer, has finished the lessons owing to school opening in the city.

Mr. and Mrs. J. Elvey spent over Sunday at Mrs. Conley's in Edgewood. Miss Neal and Mr. Thompson of Kingston were guests also.

The Gormley House reports a good season. Besides the steady boarders, the house entertained for dinner different parties from out of town, such as societies and organizations. The Prudential Insurance Company enjoyed a chicken dinner sponsored by Mr. Henderson, the assistant superintendent.

H. Boice is recovering from a grip cold.

Quite a number attended the centennial at Kingston.

Mrs. C. Mooney left for New York on Monday. Her sister and brothers and families who visited their mother in Ireland, were to arrive home and she went down to have the home open and meet them when the steamer comes in.

Mr. and Mrs. B. Baldwin spent over Sunday with Mr. and Mrs. H. Baldwin at Tannersville.

Mrs. Van Buskirk is still quite miserable. Dr. Wolfe attends her.

The streets show that the summer is over. The post office closes earlier and the meat market is arranging to do the same. The weather, too, is typical of fall. The katydids are adding their autumn song.

Night Jaller Merrihew and Troopers passed through here Monday, taking a man back to Pine Hill to be tried for stealing an auto.

C. Mooney has returned from Kaaterskill and is operator here now.

Dr. Schumaker, who has been ill, is gaining. He and Mrs. Schumaker are enjoying a nice walk during the lovely days we are having.

New Help For Rheumatic Sufferers

Used by Thousands

Yes, there is help for those who spend miserable days and restless nights with the pangs of rheumatism. This new treatment goes swiftly and surely to the very seat of the trouble, and thousands have found that it gives glad relief even in the most stubborn cases. Just ask your druggist for R-I-A-N Tablets—and take them faithfully according to directions. You'll be surprised and delighted.

Six Companies Incorporate Here

With An Aggregate Capitalization of \$155,000 During August—New York Having Banner Year.

Albany, Sept. 14.—New York state is having a banner year in the number of companies of various sorts that are incorporating these days and embarking in business. Few persons perhaps realize what this means. When companies incorporate as they are at the present time in New York state, at a rate of from seventy to one hundred a day, it means that thousands of persons will find employment, that capital will be released and in circulation, and that business generally will respond in an upward swing. During the first eight months this year, there have been no less than 17,500 stock companies incorporated in New York state. Today there is every indication that this year will witness the incorporation of the largest number of companies in the history of the state.

During the past month, out of a total of 1,832 companies incorporated, there were 290 located outside of the metropolis. Westchester county led the list with fifty companies, while from Erie county there came 42 companies, Nassau county furnishing 28, and Monroe furnishing 22 companies. A report for the month made by Secretary of State Moses further shows that there were 265 real estate and construction companies incorporated. Farmers and printing concerns have been incorporating at a rapid rate in this state of late.

In Ulster county, six companies with an aggregate capitalization of \$155,000 incorporated last month.

OFFICE CAT

By Junius

The years are wise that bring us dreams denied.

That leave our deepest hopes ungratified;

For what of earth and life, all we adore,

When men shall strive and hope and dream no more?

When there are so many girls waiting in the barber shop, it is a quite common thing for that nice looking young barber to absent-mindedly slash the faces of the gentlemen customers.

Man should be master in his own house or know the reason why. Most married men know the reason why.

Towns are seldom as red as they are painted.

One of our pool players denounces the present epidemic of shoddy goods. He gave his wife a new washboard for Christmas and it is worn out already.

The Rainy Day club was organized by women thirty years ago to agitate for shorter skirts. Few movements have met with more marked success.

A Dizzy Blonde is one of that sort who usually refers to herself as "light completed."

Diamonds are so hard that they will scratch any known metal and just simply ruin a bank account.

If she can't get him she tries to forget him and can't.

Italian (looking at the sun on a foggy day in New York): "It isn't as clear over here as it is in sunny Italy. The sun doesn't shine so brightly."

New Yorker: (possibly an American) "That ain't no sun. That's only a guy on top of the Woolworth building with a lighted cigarette."

Never be discouraged. The down and out today may be up and in tomorrow.

Youth—Say, I hope this train goes through a lot of tunnels.

Maiden—My God, boy, do you have to wait for a tunnel?

Mrs. Emil Ludwig won first prize on a cake she baked and now she makes a pest of herself telling everyone the recipe.

George—Meet the wife—but not too often.

"It makes me nervous to see Betty swim so far out; she might take a cramp."

"Oh, she'll get along all right—there's no life guard around."

Pleasure.

We do not know what pleasure is. Though prone always to take it. But here's each human's duty; viz., For other folks to make it.

A woman will jilt a man and then find out she can't live without him as soon as she learns some other woman is about to get him.

It seems that all good things to eat are indigestible.

How you going to keep the boys down on the farm when the skirts are reported shorter?

"The old joints are gayer", cried the flapper as she painted her knees.

(Copyright, Office Cat Syndicate.)

A Job Isn't Enough

Forget looking for openings, especially those which open into some place you don't at all want to go. What good is an opening that leads a potentially fine artist to be a very poor broker? Or a good banker to be a bad teacher?—American Magazine.

USE YOUR HEAD BUY HYMES' HAT

PLATTEKILL GRANGE MET. BUSY FUTURE PLANNED.

Attendance at the regular meeting of Plattekill Grange, No. 923, Saturday evening, reached the hundred mark. Eight membership applications were received from the candidates to be initiated October 22. Anyone desiring to enter this class should secure application blanks at once. The date for the annual Grange fair was set for September 30.

The program was especially instructive and entertaining since Miss Nance, Ulster County Home Bureau leader, and Mr. Boice, assistant manager of the Ulster County Farm Bureau, were participants. The program follows: Song, "America, the Beautiful"; tableau, Three Grange Principles; Liberty, Religion and Knowledge, portrayed by Ida M. Cronk, Muriel Hedges and Florence Weber; reading, "How a Married Man Sews on a Button," J. M. Chase; vocal solo, Mrs. Alice Thorne; tableau, "Home, Sweet Home," Mrs. Edward Schoonmaker, Mrs. Harold Mills, Gordon and Elmore Loxier; address, "Nutrition," illustrated by slides, given by Miss Evelyn Nance; address, "Insect Control," Mr. Boice. The refreshment committee served crullers and sweet cider.

Tickets are selling fast for the three-act comedy, "The Hoodooed Coon or Always in Trouble", to be given by the Lake Katrine Grange at the Plattekill Hall on Friday evening, September 16. A good laugh is promised all who attend. Those who fail to see it will be missing a rare treat, it is said, as this comedy has met with great success in several communities. Everyone is advised to secure tickets in advance to make sure of a seat.

The program for the meeting of September 24 will be in charge of Clifford Hotelling, J. M. Chase and Arthur Zimmer. After much effort they have been able to secure Meade Summers, a poultry specialist from the educational department of Purina Mills to put on the instructive and very amusing four-act play en-

titled, "The Lay of a Hen". Lecturer's hour, will begin at 8:30, standard time, and will be open to the public, when this play will be presented. There will be no admission charged, no advertising. The play has been obtained to help in the study of better poultry methods and no poultryman can afford to miss it. The play has plenty of real comedy in it which will make it most entertaining. After the play there will be an open forum discussion by Mr. Summers. Everyone is invited.

THE HIGH COST OF CARELESSNESS WITH FIRE

Albany, Sept. 14.—The high cost of carelessness with fire in the woods was discussed by H. N. Wheeler, lecturer of the United States Forest Service, in a series of fifteen talks given before boy scouts, girl scouts, at boys' and girls' camps, before conservation organizations, and others, in various parts of the state during the month of August.

In spite of the efforts that are being made all the time for the suppression of forest fires, Mr. Wheeler pointed out that there were in this state last year 726 fires, practically all of which were the result of carelessness and therefore could have been prevented. One illustration that he gave was of a fire which burned 5,000 acres and which resulted from some boys building a fire to smoke a skunk out of a hole. In another case camp fire girls roasting marshmallows caused a fire which burned 25 acres. At Chautauque, Mr. Wheeler addressed an audience of 3,500 and there were also large meetings at Palisades Park, Lake Surprise, Phoenicia, Hunter, Ellenville, and other places before audiences that make extensive use of the woods for recreational purposes.

Widely Circulated

The largest circulation ever reached by a daily newspaper is the more than 2,000,000 credited to the Petit Parisien, published in Paris, according to an answered question in Liberty.

Henry's Sayings.

Forestry Tour in
The Adiaondacks

City and County Officials To Make
Adiaondack Tour and Visit Nur-
series—Will See State's Forest
Fire Protective System.

Albany Sept. 14.—A number of
cities and counties that are planning
to plant municipal forests as a means
of making profitable use of idle and
non-agricultural land, will be rep-
resented on the Adiaondack forestry
tour to be conducted by the State
Conservation Department in coopera-
tion with the Farm Bureau Organi-
zation September 15-19, inclusive.

These forestry tours are of great
interest and value to individuals and
communities having land that is
non-productive, but which could be
made productive by planting forests
on it as they give all who attend
them an opportunity to study every
phase of reforesting from the grow-
ing of millions of tiny trees in the
state nurseries to merchantable
stands of mature timber.

This year the tour will start at
Ulster September 15, leaving the
Masonic home on the Ulster-Albany
highway at 2 p. m. Thursday night
will be spent at either Ballston or
Saratoga so that no delay will be
encountered in assembling Friday at
the state armory on the Saratoga-
Ballston state highway two miles
south of Saratoga Springs. Anyone
is invited to join the trip at any
point on the tour and to continue as
far as they desire.

In order to make satisfactory ar-
rangements in advance for the trip,
notify the local farm bureau agent
or Conservation Department, 23
South Pearl Street, Albany, in ad-
vance. Definite information must
reach Albany not later than Septem-
ber 16, as to the exact number of
cars and people attending.

Following are briefly the points of
interest that will be visited from
September 16 to 19.

Thursday, September 15. Leave
Ulster 2 p. m. Visit valuable planta-
tions at Little Falls and Glovers-
ville—white and red pine 13 to 20
years old. These are part of exten-
sive watershed plantations.

Friday, September 16. State nur-
series, Saratoga. Capacity 45,000,000
trees. The nine species available
for planting are seen in seed and
transplanted beds from 6 months to
7 year transplant size—91 acres of
trees, largest forest tree nursery in
America.

Plantations of T. C. Luther, who
is the largest individual tree planter,
having planted over 4,000,000 trees
on his 7,000 acre tract. Here are
White, Scotch and Red pine from 1
year to 15 years old. Approximately
1,000,000 trees are being planted by
him each year.

Friday's tour will include an ex-
amination of Weevil damage and
control, Chestnut blight damage, a
state maintained fire tower on Cor-
nell Hill, the Glens Falls city water-
shed plantation, over 2,000,000
trees planted since 1910—the War-
ren County Sanatorium, White pine
plantations, and historical features
around Lake George.

Warren and Essex counties are
the natural White pine sections of
the state. Several old stands will
be visited in the afternoon, including
the Remington lot, a 60 year stand
natural reproduction. This lot was
a wheat field after the Civil War.
Some of this White pine is now 20
inches in diameter and over 100 feet
tall. The Maxon plantation at Ches-
tertown, White pine 40 years old, is
one of the oldest in the state.

On Saturday morning the party
will visit the state public camp site
at Sharp Bridge and inspect White
pine blight rust at North Hudson.

Dinner will be at Wilmington, at
foot of Whiteface Mountain. At the
Lake Placid Club an excellent view
will be had of the major spurs of
the Adiaondacks showing Mt. Marcy,
McIntyre, Colden and the Gothics.

At the Raybrook State Hospital
plantings of European larch, Norway
spruce, Scotch and White pine will
be inspected. Several thousand
acres of state land reforested in this
locality.

Sunday morning the party will
visit at Vermontville an excel-
lence nine-year old Norway spruce plan-
tation; also a 15-year old Scotch pine
plantation that serves as a snow
fence to keep drifts out of the high-
way. At Goldsmith's a 400-acre
state plantation of nine-year old
White pine will be inspected.

All the points to be covered on
Sunday include:
Lake Clear nursery, one of the
three state nurseries. Lake Clear
nursery now contains 24,750,000
trees.

Mountain pond areas of Red,
White, Western Yellow pine planta-
tions made from 1907 to 1912.
At Paul Smith's, a stop will be
made at the grave of the late C. R.
Pettis, for many years superinten-
dent of State Forests and the man
who brought the reforestation move-
ment to its present magnitude.

On Monday the party will visit the
Clara Barton Memorial Forest,
Scotch pine 2 year old; the State
Fish Hatchery, Saranac Inn; Fish
Creek Pond—public camp site;
Axtion plantations—old plantation of
Scotch and White pine. European
larch and other various sized plan-
tations, dating back to 1899. The
first state forest tree plantations
were started here.

At Wawbeek the party will have
an opportunity to study an early at-
tempt at the conversion of hard-
wood into softwood forests, showing
the failure of planting softwoods
under hardwood cover. Visits will
be made to Scotch, White and Red
pine plantations dating from 1860
to 1907; the Whitney Preserve, old
stands of spruce hardwood type of
forest and the Roosevelt Forest, a
2,000-acre tract of Norway spruce
planted in 1926.

No Wonder
It all depends on the point of view.

Births in City
Equaled Deaths

There Were 45 Births and the Same
Number of Deaths in Kingston
During August—Reports of Health
Officials Filed.

Kingston's birth rate was the same
as the death rate during August ac-
cording to the report of the officers
of the board of health submitted at
the regular monthly meeting held
Tuesday evening at the Central Fire
Station. There were 45 births re-
ported that month and the same num-
ber of deaths.

The reports of the officers, which
were read and filed, follow:

LAST NIGHT
on the RADIO

Improved reception and greater
distance characterized Tuesday night
on the radio. AMONG the distant
stations whose voices arrived in our
busy midst were WFAA, WWJ,
WOC, WBBM, KYW, WSAI, WLV,
WLS, WSM, WCX and WHT.

There was a tendency to spread-
ing and for a time WWJ could be
heard squealing in reception from
WGY.

WCAU seems to have been moved a
trifle higher, as it can easily be sepa-
rated from WBBM. It now seems to
be blanketing WJAX.

That tender and soulful new song,
noted a few days ago as coming
from Cincinnati was sung at WCX
Tuesday night in greatly improved
form. The refrain was "I'm Goin'
to Dance With the Feller Who
Brought Me".

Fresh Pastures Beckon
After public estimate has placed
one in a niche he doesn't like in a
small town, it is a good idea to move
somewhere else; and it is usually
done.

Cent-a-Word Ads. Bring
Quick Results. Try Them.

A few DOLLARS now
will save
a few TONS next winter

The men listed below can save you many dollars this winter. Have the one nearest you inspect
your heating plant now. If you used too much coal last season, he can probably adjust your
boiler at very small cost. Even if the heating system seemed to be in fair condition, he might
discover some defective part that wasted a portion of every shovelful of coal. A minor adjust-
ment may stop this drain. A few dollars for repairs now will save a lot of worry, incon-
venience and coal next winter.

By going to one of these dealers you are assured of a square deal. They are heating experts—not salesmen.
They are your neighbors, know your problems, and are anxious to keep your patronage. Look for your
dealer in the list below and write or phone him today!

After a thorough examination your
dealer might decide that the best eco-
nomy lies in a new boiler. In installing a
Richardson & Boynton boiler, he assures
you of the utmost comfort and economy.
It will be just large enough to heat every
part of the house with a minimum of coal
—and it will be guaranteed to live up to
its rated capacity by the Richardson &
Boynton Co. Convenient payments can
be arranged if desired.

Ulster Garden Club Winners

The Ulster Garden Club has received the tabulated results of the floral competition in which they engaged at the Ellenville Fair. At the time the club competed with the Ellenville Garden Club in the following classes: Floral arrangements, flowers grown from seed and table arrangements; and with the entire county in the specimen class. The prizes were awarded as follows:

Blue ribbon premiums for specimens in competition with the county.

For Larkspur—Awarded to Mrs. Williams Carter of the Ulster Garden Club.

For Veronica—Awarded Mrs. John D. Schoonmaker of the Ulster Garden Club.

For Cactus—Awarded Mrs. George D. Smith of the Ulster Garden Club.

Prize of \$5, donated by a member of the Ellenville-Napanoch Garden Club for the best cut perennial delphinium—won by Mrs. Louis A. Benedict of the Ellenville Garden Club.

Catskill Wants Vehicular Bridge

A vehicular bridge to cross the Hudson river at Catskill was unanimously looked upon as a most favorable and necessary structure at a meeting sponsored by the Chamber of Commerce of that village Monday night. Prominent members of the community readily expressed their sentiments in favor of the bridge, the construction of which, it was claimed, was endorsed by Colonel Greene when he headed the highway department of the state and recommended a bridge at some site between Poughkeepsie and Albany.

Resolutions were passed at the meeting stating that the bridge would be a convenience not only from a commercial standpoint but geographically as it would facilitate travel between the eastern states and points in New York state.

It was also decided to let the governor of the state, the head of the highway department and the assemblymen of Greene and Columbia counties know the sentiments of the Catskill residents concerning the bridge.

It was deemed wise to initiate the movement by seeking the assistance of residents of surrounding communities, who would be benefited by the bridge, and a fund was created for the promotion of the cause. The fund is rapidly increasing and is expected to assist in promoting the cause.

It was deemed wise to initiate the movement by seeking the assistance of residents of surrounding communities, who would be benefited by the bridge, and a fund was created for the promotion of the cause. The fund is rapidly increasing and is expected to assist in promoting the cause.

TALKING ABOUT AIRPLANES

Well folks, I want to tell you, I had the thrill of my life yesterday when I went up in one of these airplanes.

I had the fellow drive me right directly over our store and then we saw Wall Street and Broadway and all around town.

It sure is funny seeing the town from above.

And by the way they say in a few years there's going to be a lot of airplanes and what with all the street being taken up by autos, we'll have to make parking space some place. And looking at our store from above, I noticed our roof was sloping and I want to say that I will have to get busy and make our roof level before the airplanes start to get popular or they'll be landing on our heads instead of on the roof.

As ever

Tagging Major League Bases

(By The Associated Press.)
Pennant chances of the Pittsburgh Pirates based today than at any time since the club climbed to the top of the National League ladder during the recent road slump of the Chicago Cubs. The Corsairs now occupy the crown's best with three full games to spare and Louis Boud's club may have a pretty fair margin to work on by the time the Giants reach Pittsburgh.

Hard timely hitting and good pitching brought Pittsburgh home to victory in two games yesterday against the Boston Braves. Lee Meadows pitched the leaders to a 6-1 victory in the opener. The Pirates routed their pitching mates, Kent Greenfield, after four innings. Vic Aldridge hurled the Cubs to a 5-4 victory in the second game, his fourth nailing their nits in the fourth and fifth innings for their runs.

Model southpaw the Giants into submission in the first game at St. Louis, the Red Birds getting a 5-2 verdict. Larry Benton lasted six innings and was succeeded by Bill Walker, who never southpaw. The Giants having been knocked out of second place in the standing came back for a 12-5 win in the afternoon. Terry Jackson and Harper hit home runs off Vic Keen, who had succeeded Jesse Haines on the mound. Haines was greeted with a five run assault in the first inning and retired. The Giants blasted Keen for five more in the fourth. St. Louis rallied in the eighth and ninth but Douthitt grounded out with the bases loaded in the final inning. Brooklyn set back the Chicago Cubs in the series opener, 6-5. The Robins bunched hits off Blake in the early innings and the Cubs' game rally in the eighth for four runs was stopped short by McWeeney. Brooklyn right-hander. The Cubs are now five games out of first place.

Cincinnati disposed of Philadelphia 5-3. The Quakers scored all their runs in the ninth, when Kolp had to be rushed to the mound to stop the attack that had started on Rixey.

While the Yanks were clinching the American League pennant, the Philadelphia Athletics were swamping the Chicago White Sox, 15-5. Ty Cobb collected four of the Athletics' 19 safe hits. Seven runs in the eighth assured the Mackmen of their victory.

Washington gathered in both ends of a doubleheader against Detroit 3-2 and 5-3. Braxton and Lisenbee were the winning pitchers.

The Boston Red Sox came from behind in each game of a doubleheader against the St. Louis Browns and snared a double victory, 5-4 and 3-2. The first contest went 12 innings. Carlyle's triple and Shaner's double scored the winning run. A squeeze play in the eighth inning of the second game, engineered by Tobin and Todd, broke a 2-2 deadlock.

Manager John McGraw Made Thirteen Boots

Thirty-seven years ago a young man with high ambition came to Ocean and signed up with the local club of the Iron and Oil League. His signature read: "John J. McGraw, Truston, N. Y."

The young recruit was assigned to third base, and in the first game distinguished himself by making 13 errors. He was not as disgraced as the club manager, however, and eventually rose to his present position with the Giants.

PITCHER PLITT FAT AND FUNNY

Has Everything Big Leaguers Should Not Have.

The photograph shows Norman Plitt, who recently joined the Brooklyn Dodgers. He shows great promise of being an effective moundman.

As the picture would plainly indicate, Plitt is a portly person. He looks as though he might be Robbie's own son, favoring his famous manager to a striking degree. Not since Toad Ramsey, the famous left-hander, pitched so grandly for Louisville in the old American association days of more than 30 years ago, has a fatter, funnier looking pitcher ever held forth in the majors.

Plitt was signed by Brooklyn some several seasons ago but he would not stand for being farmed out, so he jumped the club and played independent ball. Of late his sensational pitching for the semi-pro team of Kenosha, Wis., led Robbie to try to get him back again. He was released by Judge Landis last winter and reported to Brooklyn.

Robbie snorted when he saw him. He is as fat as a butter ball and he looks more like an alderman of forty than a young pitcher of parts. But this fat, smiling, bespectacled person can pitch with much skill and craft, as he has shown every time he had a chance this year. Robbie plans to give him his regular turn in the box. If he makes good he will defy every law of baseball fitness and tradition.

He is thirty years old, too fat, too easy-going, eyesight bad, everything a big-league pitcher ought not to be. But this strange and smiling paradox has a loose, steel-strung whiplash attached to his ponderous bulk and he uses it in a manner to impress his Uncle Robbie most deeply.

Oh yes, they called Ramsey "Toad" because he was built like a toad. He was the strikeout king of his day. Plitt may be the "Toad" Ramsey of this day and age in baseball.

Bill Dinneen Tells How to Avoid "Pop" Bottles.

How to keep the "pop" bottle from whizzing around your ear and the teams happy in the most thankless job in the world is told by Bill Dinneen, former big league pitcher and for the last fifteen years an American league umpire, in the American Boy Magazine. Here are his rules:

1. Never lost sight of the ball. Remember that no play can be made without it.
2. Get "on top" of the play. The closer you are the better you can see what's happening.
3. In calling balls, stand as nearly on the line with the pitcher and the plate as you can. Avoid angles.
4. Learn to relax every chance you get. Otherwise the tension may crack you.
5. Don't pay any attention to crabs. That's the easiest way.
6. Be prepared. Try to figure the play ahead of time. Be on the look-out for a base throw, a hit and run play, or an attempt to steal.
7. On "interference" or "out of line" plays, give your decision quickly.
8. Master the rules. You can't afford to let the players get the idea that they know more than you do.

Kling's Marvel Throw

Many of the old-timers always will insist that John Kling, the greatest catcher of Frank Chance's Chicago Cubs, was the best peger the game has known. It seems that Kling's right arm had been broken, that the bone had not knit properly, and that Johnny could not throw with a full arm swing. This injury proved to be a blessing, however. He developed a snap throw that was a marvel.

Color Cures

By replacing white walls and red coverlets in hospitals with delicate greens, yellows and mauve ones, it is claimed that patients are kept in a better temper, sleep well, and leave the hospital three days sooner than under the old conditions. One individual, afflicted with chronic insomnia, went to sleep within an hour in the restful atmosphere of a room decorated in mauve.

No Game Yet For Sunday

The Colonials at present are without a scheduled game for Sunday afternoon at the Fair Grounds. Booking Manager Brown is negotiating with several fast organizations to sub for home team's All-Stars, who had to cancel their game because five of the scheduled players must return to school in the south. The final game of the season for the All-Stars will be at Poughkeepsie, Thursday, after which they will immediately leave for the south.

The team most likely to appear here Sunday is the Erie team, although no definite answer could be made by last night's deadline. If the nine comes here they will no doubt impress the fans as Evans' team has for they have a number of fast performers in the lineup. "Lefty" Stone, former Pittsburgh Pirate, and "Lefty" Blodgett, who two years ago performed with Omaha, are members of the Glensville club.

The season is now getting late for the national sport, but it is not known when the Colonials will quit. They are in much demand as challengers in the vicinity of Dexter Park, Brooklyn, and no doubt will meet the Bushwicks in several encounters before closing the season.

Leading Hitters in The Major Leagues

NATIONAL LEAGUE.			
Player and Club	G.	A.R.	R. H. Pct.

AMERICAN LEAGUE.			
Player and Club	G.	A.R.	R. H. Pct.
Simmons, Phila.	93	371	75 138 .220
Shannon, Detroit	123	423	95 166 .254
Gehrig, N. Y.	140	529	110 262 .282
Fothergill, Detroit	129	481	88 173 .269
Cobb, Philadelphia	125	463	98 162 .250

ROUNDOUT A. C. WILL PLAY DOUBLE HEADER.

The Roundout A. C. will play a double-header at Block Park Sunday afternoon. The first game with the Blue Sox will be called at 1:30 and a battle with the New Paltz All-Stars will follow after an intermission of ten minutes.

Jimmy Doyle and Art Steltz are scheduled to do the hurling against the Sox with Dulin behind the bat. Lewis and Gill will probably form the battery of the Blue Sox. The teams have met several times this season and fast games were produced on each occasion.

Phil Peters will assume the boxman's task for the Roundouts in the game with the New Paltz All-Stars. Dulin will do the catching, Mitchell and Eckert will form the battery of the opposing team.

The Yankees look like a certainty to win the American league pennant and certainly are decidedly monotonous. It is the unexpected that sets the blood moving and elevates the spirit.

Will Continue Series Thursday

The stage is set for the second game of the West Shore-U. & D. Cornell series for the championship of the Industrial League at the Athletic Field Thursday evening. It has been decided to call the game at 8:15 in order that darkness may not interfere.

The downtown railroaders will no doubt send Dick Williams to the mound in the hope that he will put them on even terms with the West Shore, who won the first game of the series. Carpenter, who hurled the West Shore to victory in the first game of the series, will be on the mound again Thursday. It is said.

Both nines have reserve hurlers of ability and should Manager Long decide to save Williams, either Peters or Black will take the mound for the U. & D. Cornell. Manager Banks, of the West Shore, may also depend on either R. Williams or Bush in place of Carpenter.

Yellow Jackets Are Well Known

The Yellow Jacket football team is looked up to as one of the most progressive teams outside of the big time organizations such as the American League, and their fame as Hudson valley champions has spread as far west as Cleveland.

The Cleveland Panthers, one of the leading organizations of the middle west, coached by Tiny Potter, former Washington and Jefferson College star, and former members of the American League, are hot on the trail of the Yellow Jackets. Manager Bill Dwyer, of the local eleven, has received communication from the Panthers asking for a game in which they claimed victories over Red Granger's New York Yankees, George Wilson's Wildcats, and the Rock Island eleven, headed by Duke Slater, famed All-American griddler. This team lead the American League at the close of the season last year.

Manager Dwyer is confident that some of the best eleven may be secured to stack up against the Yellow Jackets this season owing to their reputation and is trying to arrange a schedule which will be considered a rare treat by the football fans of this vicinity. He expects to have his aggregation of veteran pig-skin toters in prime shape for a contest in the near future. The eleven is working strenuously every evening on the Athletic Field.

Snow Aids Coloring

Alpine flowering plants blooming at the edge of the snow line when the snow is melting are very bright, but in dry soil and the same atmospheric conditions the flowers become pale in color.

Martha Norelius Clips Record

The photograph shows the start of the one-mile race at the National Women's Swimming championships held at the Biltmore Shores Yacht club at Massapequa, L. I. This event was won by Martha Norelius of New York who clipped one and three-fifths seconds off the old world mark for the distance. The inset shows Martha Norelius.

IT MUST RUN IN THE FAMILY!

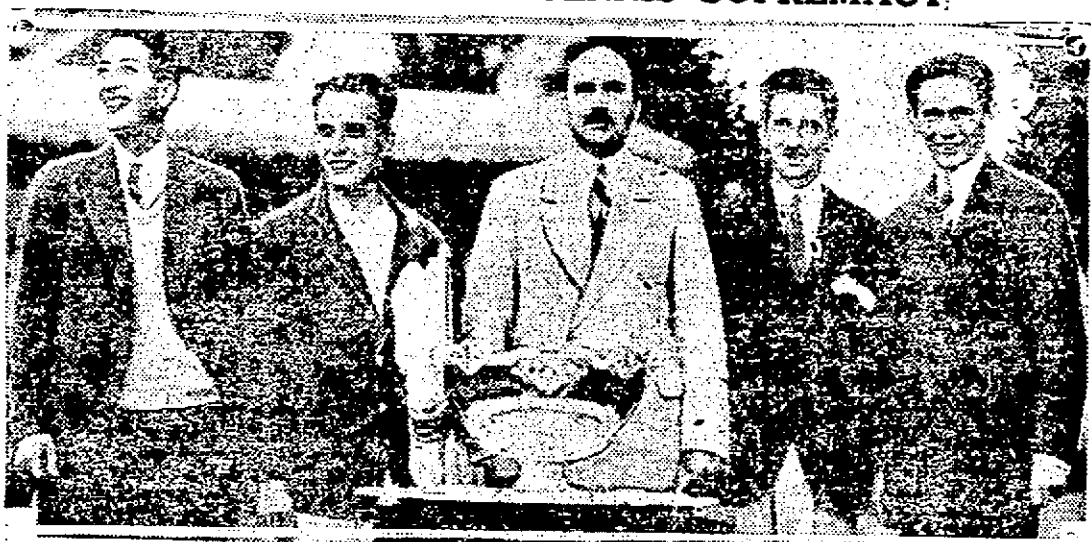

Will Gunn of Atlanta, younger brother of Watts Gunn, famous golfer, threatens to steal some of Watts' thunder. Will has just captured junior golf championship of Atlanta.

WOULD YOU CALL THEM REAL "WHITE ELEPHANTS"?

Connie Mack's supreme effort for his first pennant since 1914 was built around three old hands—Ty Cobb, Eddie Collins and Zack Wheat. Cobb drew down \$70,000; Collins \$25,000, and Wheat \$18,000—but the Athletics are a few miles in the rear of the Yankees after all. Philly fans are wondering if these three venerable "white elephants" on Connie's hands, despite the fact that each of 'em gave their very best efforts to the losing cause.

AMERICA LOSES TENNIS SUPREMACY

French tennis team goes away with Davis cup for first time since 1920. Photo shows left to right: Rene Lacoste, Henri Cochet, Ambassador Claudel, Jacques Brugnon and Jean Borotra.

TUNNEY TAKES A THREE DAY VACATION.

Lake Villa, Ill., Sept. 14 (AP).—Most people would naturally believe that the heavyweight champion of the world, of all people, is the best able to take care of himself, but not the citizens of Chicago.

For the first time since Tunney came west ten days ago to complete training for the most expensive fight display in history—his \$3,000,000 title battle with Jack Dempsey at Soldier Field—the champion today had no one minding him.

Gene left his personal bodyguard, Bill Smith, of detective headquarters, spinning yarns on the stockyards and the hold Chicago gunmen, when he departed the training camp Monday to visit with friends at Lake Forest, 20 miles away.

A miniature fire department assigned from headquarters in Chicago, as well as Sergeant Smith's three assistants, the regular police force about the grounds and Riggs II, the Quantic marine mascot from Virginia, all were left with nothing to protect.

With the champion absent, not even people with business on the grounds are appearing at the camp. A Gene was due at the Country Club but was on the receiving end all the day absence. Satisfied that his con-

DEMPEY HAS FAST WORKOUT ON TUESDAY.

Lincoln Fields, Crete, Sept. 14 (AP).—Under the rays of a beautiful harvest moon, Jack Dempsey went through his second secret workout by floodlight last night, his longest, and some said his fastest, since he settled down to intensive training.

For seven full rounds, five with sparring partners and two with the heavy bag, Jack hammered away. Dave Shade, California middleweight, made the occasion impressive by facing the former champion for the first time in the preparatory for the Tunney match.

Shade gave Jack the speediest workout he has had with any sparring partner here. Rocky Adams, a 200 pound Iowa, followed Shade, tonight for dinner after his three day absence. Satisfied that his con-

dition is such that only three more workouts will fit him perfectly for the ten-round title defense, Gene will box Thursday and Friday and probably Sunday before putting aside his training togs.

Weighting 192 pounds or thereabouts, Tunney, according to the consensus of newspaper critics, is faster than when he whipped Dempsey last fall, stronger and is boxing and punching better than at any time in his career.

While the Mercury stood around 95 yesterday when Jack took his afternoon exercises against the heavy bag, it was comparatively cool, with a comfortable breeze, when the moonlight workout began.

Jack Quinn, of the Philadelphia Athletics, who recently celebrated his forty-second birthday, has the distinction of being the oldest major league player now in active service.

Johnny Kerr, second baseman for the Hollywood club in the Pacific Coast league, recently handled 12 chances in a game with Seattle, equaling the best record on the books.

Incensed by abuse directed at him by a Columbus fan, Joe Bird, Senator backstop, climbed into the bleachers after his tormentor. A fight was averted, however, when police intervened.

Fifty Planes Enter Air Race

Spokane, Washington, Sept. 14 (AP)—Fifty airplanes were declared eligible today for two New York-Spokane air derbies starting from Roosevelt Field next Monday and Tuesday.
Eighteen have entered in the Class A race, for larger planes, which starts at 5 a. m. Tuesday, and 22 in the Class B event to start at 5 a. m. on Monday. The Class A planes will make six stops; the Class B, ten.
Entries in the non-stop transcontinental race, also from New York to Spokane, will close tomorrow. Six planes have thus far entered this event, and that many more are expected.

Query
And if the worm does turn, what does it benefit him?

Financial and Commercial

New York, Sept. 14 (AP)—Stock prices continued to work upward in today's market under the leadership of the high-grade industrials and rails. A reaction in the call money rate from 1 1/2 to 1 per cent stimulated the recovery, which had been temporarily improved after mid-day when a sharp drop occurred in a couple of specialties.
A break of 5 points in Gabriel Snubber, followed by a decline of 7 points in Houston Oil, had a temporarily unsettling effect.

Appreciated Aid

We wish to thank our many friends and neighbors for their kind assistance in the recent destruction of our home by fire.—From a Wyoming Paper.

LAVA BEDS of IDAHO

An Old Fumeroe or Sputter Cone.

Prepared by the National Geographic Society, Washington, D. C.

IN THE West the term "Lava Beds of Idaho" has always signified a region to be shunned by even the most venturesome travelers—a land supposedly barren of vegetation, destitute of water, devoid of animal life, and lacking in scenic interest.

In reality the region has slight resemblance to its imagined aspect. Its vegetation is mostly hidden in pockets, but when found consists of pines, cedars, junipers, and sagebrush; its water is hidden deep in tanks or holes at the bottom of large "blow-outs" and is found only by following old Indian or mountain sheep trails or by watching the flight of birds as they drop into these places to quench their thirst. The animal life consists principally of migrant birds, rock rabbits, woodchucks, black and grizzly bears; its scenery is impressive in its grandeur.

A glance at a map of Idaho shows that the southern part of the state, lying between Arco and Carey and north of Minidoka, is a vast region labeled desert or rolling plateau. This region is about 100 miles southwest of Yellowstone park.

Although almost totally unknown at present, this section is destined some day to attract tourists from all America, for its lava flows are as interesting as those of Vesuvius, Mauna Loa or Kilauwa. Part of it has recently been made into the craters of the Moon National monument.

The district consists of some 63 volcanic craters, lava, and cinder cones, all present extinct or dormant. The largest and most conspicuous is 600 feet high, rising in the midst of a belt of craters two or three miles wide and 80 miles long. The craters or cones are "close together in the north and west; in the south they are miles apart.

Among the Craters.

In entering from Minidoka one of the first major landmarks encountered is Big Dome. A few hundred yards north of it is a crater several hundred yards in diameter and about 200 feet deep. The bottom of this crater was utilized as a camping site by a recent exploration party. They found themselves in a gigantic funnel whose sloping sides of red and black formed weird surroundings in the reflections of the campfire. A peculiar feature of the bottoms of the craters was that they seemed to act as sounding boards for the notes of the birds migrating northward far overhead. Their faint calls are gathered and intensified until the birds seem only a few feet away.

Half a mile east of Big Dome is an immense crater ring that looks as if the top of a mountain had collapsed and fallen back into the volcanic throat. From the center, crags of bright-red lava and burned cinders jut up. In some places the lava is black, as if smoked in a fire.

The crags have magnetic properties, and the compass needle cannot be depended upon when near them. About a quarter mile to the northwest is a large fissure, which was named Vermilion canyon. The floor, a hundred or more feet in width, is composed of cinders; the walls of lava are a bright, almost a vermilion, red in the sunlight.

Fifteen feet south of this is a hollow cone, built up 4 or 5 feet. One side has fallen in, exposing the throat, which goes down 25 feet and then angles off, an unknown depth. Fifty feet to the north is another cone, about 4 feet high and 2 1/2 feet in diameter at the base. This has a 6-inch hole in one side, which opens up as it goes down.

Not far away is another crater similar to the one already described but having interesting variations. From its rim one sees below a hundred or more large lava blisters or bubbles. In many instances the tops have fallen in, disclosing rooms from 8 to 10 feet across and as high as 6 or 7 feet. The shells of these lava bubbles are from 6 to 8 inches thick. Their color is a grayish brown.

West of the crater beside Bubble Beds are channels winding through the lava flat just as meandering brooks might cross a level meadow. Examination showed these to be lava gutters. Here the plastic lava had flowed down grade, assuming all the shapes of a mountain stream. It was in waves, rolls, twists, and levels.

Ten miles to the northwest, beyond Buttes and lava beds, lies Echo Crater, one of the most beautiful in the region. It is 700 feet deep and is one of the few craters having a growth of timber on its sides and bottom. The dark green of the pines and cedars emphasizes the vivid coloring common to these craters.

Beautiful Ice Cave.

About a quarter of a mile east of Echo Crater is ice cave. There is a rush of cold air from the entrance. The cause is immediately apparent. The floor is a conglomerate mass of huge lava blocks. These and the walls are increased in water, with about 2 inches of ice as clear as glass, through which the structure of the rock can easily be seen.

Hanging from the ceiling are many ice stalactites, some 4 to 8 inches in diameter at the base and from 3 to 8 feet long. In places, especially where there is a ridge in the ceiling, they are in closely packed clusters.

East of Echo Crater a lava flow some 20 miles wide extends to the east. Most of the flow has a pahoehoe surface (a word borrowed from the Hawaiians and used to distinguish a smooth,ropy flow from the rough, broken-up, ice-jam formation which the islanders dub the "AA" flow). In places there are ridge after ridge and fold upon fold, with crevasses and cracks; again, there are huge folds and waves, as if some one had crumpled a heavy blanket.

About four miles from Echo Crater in this formation is a lava stalactite cave. Each stalactite, from 2 to 7 inches long, is covered with green moss.

Farther east is a natural bridge of lava arching a point where two cliffs of lava narrowed down. It has a 50-foot span, and from the floor to the roof of the arch is 15 or 18 feet. Its width is 75 feet. There is a pine tree growing under the east entrance. East of the bridge is a cavern that has been named Amphitheater Cave. It is a room some 40 feet wide and 60 feet long, with a domed ceiling 20 feet high.

One of the best vantage points in the craters of the Moon country is Big Cinder Butte, about 22 miles south of the town of Arco, and within five miles of the highway from Carey to Yellowstone park. From the summit one looks over numerous craters and flows and the other features that make up the weird region. To the north are many sputter cones and the sandy outlines of huge craters. Two miles northwest is a row of seven lava sputter cones caused by molten lava which had been thrown out of a vent, piling up to a height of 60 feet.

Cobalt Blue Lava Flow.

Stretching to the southwest for a distance of about 11 miles is one of the most remarkable lava flows in the world. Its color is a deep cobalt blue, with generally a high gloss, as if the flow had been given a coat of blue varnish. The surface is netted and veined with small cracks, having the appearance of the scales of some prehistoric reptile. It has been named the Blue Dragon Flow. It merits the name, as in many places it has burst through the crevasses of an older flow, and the ropy twists of blue lava, spreading out in branches, together with its scaled surface, need but a little stretch of imagination to suggest the claws and legs of a dragon.

It is the play of light at sunset across this lava that charms the spectator. It becomes a twisted, wavy sea. In the moonlight its glazed surface has a silvery sheen. With changing conditions of light and air, it varies also, even while one stands and watches. It is a place of color and silence, broken only by the wail of the coyote and chirp of the rock wren.

Beyond the north end of Blue Dragon Flow is an immense cinder cone, the west side of which has breached away, leaving the floor of the crater exactly as it must have appeared when the eruption of lava ceased. Here are bubbles, rolls, folds and twists, as if a giant's frying pan of thick gray furiously boiling had been broken open and traveled northwest for several hundred yards, and then, having been dammed up, had broken through a low place in the cinder ridge and gone east.

Local Death Record

Charles C. Bell died at the home of his brother, Jason Bell, at Mettacabots on Monday, aged 65 years. Funeral services were held this afternoon from his brother's home with interment in the Pine Bush Cemetery near Kerhonkson.

Celia Thompson, wife of the late Matthew Thompson, died at her home in Pine Hill on Wednesday. She is survived by three sisters, Mrs. Dutcher of Arkville, Mrs. Molyneux of Arkville, and Mrs. Scudder of Shandaken. Funeral Friday from the late residence at 2 p. m., standard time. Interment in the Shandaken Rural Cemetery.

The funeral of George H. Wager, who died Thursday last at his home in Kripploush, was held from the Kripploush M. E. Church on Sunday afternoon at 2 o'clock with interment in the Fairview Cemetery at Pine Bush. Besides his wife the surviving relatives are three sons, Darius, Byron and Walter Wager, one daughter, Melissa Rogers, two brothers, Westley and Myron Wager, and two sisters.

Mrs. Justice Fitch of Blue Mountain died at the Kingston City Hospital Monday afternoon. Mrs. Fitch recently underwent an operation at the hospital. She is survived by her husband, Justice Fitch, of Blue Mountain, two daughters, Evelyn and Gertrude Haggerty, two sons, John J. and Edward J. Haggerty, and a brother, Thomas Russell, all of Brooklyn. Funeral services from the late residence in Blue Mountain on Thursday morning and at St. John's Church, The Clove, at 9:30 o'clock. Interment in Calvary Cemetery in Brooklyn.

The funeral of former County Judge John G. Van Etten was held this afternoon at 3 o'clock from the late residence on West Chestnut street and was largely attended. There was a large delegation present of the members of the Ulster County Bar Association, and the board of education and other civic organizations which were in charge of the services. The Rev. W. P. Kemper of St. John's Church, The Clove, officiated. The Rev. Charles Mercer Hall of Bridgeport, Conn., a former rector of the Holy Cross Church on Pine Grove avenue, the floral tributes were profuse and beautiful. Interment was in Montrose Cemetery.

LITTLE SUSAN DEVO IS REPORTED IMPROVED.

An item appearing in a number of newspapers under a Milton date stating that Susan, the eleven year old daughter of Mr. and Mrs. Warren Devo, had died at the Benedictine Hospital Saturday following serious injuries when she was struck by an automobile near Sturgeon's Corner, is in error. The little girl, although severely injured and suffering from a fracture of the skull and other internal injuries is getting along very well at the Benedictine Hospital, where she was brought following the accident by Dr. Preston and State Troopers in the car of Lawrence Brewster. Her condition is reported as improved. She is under the care of Dr. McCambridge.

LADIES' TOURNEY AT TWAALF-SKILL CLUB.

All entries for the ladies' putting tournament for 1927 at the Twaalf-skill Club must be in by Wednesday, September 21. Sign bulletin board at the Country Club or telephone Mrs. William D. Brinnier, Jr. Whether you are a golfer or not the committee is anxious to have all of the ladies sign up. John D. Schoonmaker has offered a very handsome cup. A prize will also be given for the lowest score during the season.

Old Roman Religion

Remains of a Roman soldiers' temple to the eastern sun god Mithra, dating back to before A. D. 325, have recently been uncovered near the north German city of Dierdorf. The find is regarded as one of the most important archaeological discoveries ever made in Germany. The altar piece, a slab of sandstone about a yard square carved with scenes from the mythical life of the god, was found in almost perfect condition. The cult of Mithra was an immensely popular religion in Rome during early Christian times, especially in the legions, which spread it throughout the vast extent of the empire, and it was only with much difficulty that Christianity finally was able to overcome and replace it.

Motors Lift Bridge

Most railroad bridges of the lift type in the United States are operated by electric motors served by a power system. However, the Pennsylvania railroad has a bridge across the Chesapeake and Delaware canal that has no easy access to central station power, so a gasoline engine generator set was installed to supply the lift motors with energy. A 110-kilowatt gas engine set serves the two 120 horsepower motors. The lift span of the bridge, carrying two tracks, weighs 700 tons and is raised to a level that clears the water by 30 feet. If a boat approaches the bridge can be lifted to its top position in 20 seconds.

World Does Progress

Before you sneer at the possibility of transatlantic air passenger traffic, look up that old Ohio law which forbade the devilish intrusion of railroads.

Colonials Will Play Gloversville

The Colonials will stage a double header at the Kingston Fair Grounds on Sunday afternoon when their opponents will be the fast Gloversville aggregation. The first game will be called at 2 o'clock. Lefty Stone and Lefty Blodgett will likely be the pitching selections of the visitors. Blodgett is well known to the Colonial batsmen as he twirled against them at Onondaga.

Mellon Favors Charles E. Hughes

Washington, Sept. 14 (AP)—While he has not decided to support any Republican presidential candidate at this time, Secretary Mellon was said today at the treasury to favor Charles E. Hughes from a personal point of view. It was added, however, that this did not necessarily mean he would be behind Mr. Hughes should the latter declare himself a candidate.

Society Notes

Mr. and Mrs. Andrew J. Keefe of 291 Washington avenue announce the marriage of their daughter, Mary Celeste, to Adam H. Porter of this city in New York on Monday, September the twelfth.

Robinson-Mackay.

Henry Clay Robinson of Oakes, son of Mr. and Mrs. William Robinson, formerly residents of Fourth Binnawater, and Miss Ethel May Mackay, daughter of Jarvis Mackay, were married at All Saints' Episcopal Church, Rosendale, Saturday afternoon, September 10. The Rev. James G. Cameron, rector, officiating. Mrs. C. V. Hasbrouck, organist, played the wedding march, and the young couple received the hearty congratulations of their friends after the ceremony.

Kinney-Carey.

New York, Sept. 14.—Marguerite Gertrude Carey, 25, formerly of Kingston, N. Y., but at present residing at 3100 Broadway here, and Claude Andrew Kinney, 26, of this city, were married in the Corpus Christi Church here today soon after they obtained their license to wed at the Municipal Building. The ceremony was performed by the Rev. Emmanuel Carey. The bride was born in Kingston, the daughter of Patrick and Anna O'Neill Carey. Mr. Kinney is the son of Lincoln and Ida Watrous Kinney. He was born in Meriden, Conn.

Husta-Myer.

William Husta, well known in Kingston as "Mickey" Husta of basketball fame, a resident of Egg Harbor, N. J., and Kathryn Myer of Hurley avenue, this city, were united in marriage at the Lutheran Church of the Redeemer at noon today by the pastor the Rev. William J. Nelson. They were attended by Edward S. Fox, best man and Phyllis Myer, sister of the bride, as bridesmaid. They left on a honeymoon this afternoon for Thousand Islands, Alexandria Bay and other points of interest in Canada. They will return by way of Niagara Falls and make their home at the Myer residence on Hurley avenue.

A Farewell Party.

A farewell party was tendered Miss Carolyn Boglioli at her home, 112 First avenue, Monday evening. The many who visited her before her departure to Brooklyn, where she will make her future home, wished her happiness and prosperity. Cornet soloists were given by Allen Hoer, Chester Van Demark entertained with a dramatic offering. Anita Senor and Martha Greenberg did an artistic circle dance. Delicious refreshments were served and all departed for their homes at a late hour. Those present were Dorothy Van Demark, Vera Spalt, Oscar Spalt, Ruth Greenberg, Rose Marie Durdik, Mildred and John Saelhoff, Allen Hoer, Emil Greenberg, Mr. and Mrs. Christina and daughter, Margurita Anita, Mr. and Mrs. John Kiehl Christiansen, Mr. and Mrs. Chester Van Demark, Mr. and Mrs. Charles Senor and daughter, Ruth Myra, Mr. and Mrs. Peter Hoer, Mr. and Mrs. Fred Saelhoff, Miss Martha Greenberg and the Misses Josephina and Carolyn Boglioli.

Birthday Party.

On Wednesday night at the home of Mr. and Mrs. Kaul Kight at 95 First avenue, a party was greatly enjoyed by a large number of friends and relatives in honor of the sixteenth birthday of their daughter, Catherine. Dancing, music and games were enjoyed by all. During the evening Mr. Radenburg entertained the guests with a speech on "School Days", which was enjoyed by all. At midnight the guests were ushered into the dining room, color scheme being pink and gold; served. Miss Kaman received many useful and beautiful gifts. Those present were as follows: The Misses Viola and Victoria Mower, Olga and Gossaline, Betty Magr, Mabel Underdonk, Minnie Branton, Gilberta Short and Catherine Kaman; the Messrs. Joe Miles, Ed. Houghtaling, John Beninato, Leonard Finch, Art. Guineck, Carl Speigl, Harry Neifal, Nick Radenburg, Bill Greenberg, Bill Weber, Tie Wronoski, John Kaman, Mr. and Mrs. Gossaline and Mr. and Mrs. Kaman. The guests departed in the early hours of the morning wishing Catherine many more happy birthdays.

Earthquake's Velocity

An earthquake wave has been known to travel across the Pacific ocean in twelve hours and sixteen minutes—that is, at the rate of six miles a minute.

No Relief From Hot Wave

Chicago, Sept. 14 (AP)—The west looked in vain today for relief from the three-day heat wave as the weather bureau has predicted continue through Thursday.

Reports of many deaths and rising temperatures which are making this month the hottest September weather bureau history came from parts of the west central states. Four cities reported their temperatures as being under 90 degrees.

Eight deaths were reported

where the mercury touched 95 degrees, equalling the record for September established in 1926. Reading was 80 degrees at 10 o'clock last night, and beaches were thronged until after midnight.

Many Illinois, Indiana and Michigan schools were closed due to the heat.

400 Japanese Killed by Storm

Tokyo, Sept. 14 (AP)—Four hundred persons are dead, 2,300 injured and 700 houses destroyed in Kanagawa Prefecture, Island of Kinsai, in consequence of yesterday's typhoon and tidal wave, reports to the Japanese home office stated today. In Fukuoka, Nagasaki and Kanagawa prefectures there were casualties, but numerous houses were inundated and damaged. The tail of the typhoon struck Tokyo this morning. Several thousand houses in the low-lying sections were flooded. Thirty children were injured when the roof of a school house was blown off.

Schools Close for Van Etten Funeral

President Flemming of the Board of Education has appointed the following members of the board as committee on resolutions with respect to the death of John G. Van Etten, member of the Board of Education: Charles Katz, Mrs. Everett Foster and Louis Beeres. The committee will report at the next meeting of the board. Schools will be closed at noon today, and flags on all school buildings carried at half mast.

About the Folks

Mr. and Mrs. Earl Slicker of Mr. and Mrs. George Slater of the week end at Poughkeepsie.

Reginald Every, who represents the Canfield Supply Company in the mountain territories, has returned from an enjoyable vacation.

Mr. and Mrs. Edgar E. Becker of 35 Lafayette avenue have returned from a two weeks' sojourn at Orange Grove and Ashbury Park, N. J.

The Rev. William Jordan, a former pastor of the Holy Name Church at Wilbur, was a visitor in town the last two days and was greeted by many of his former parishioners.

Miss Doris Van Sickle, who has been spending a month's vacation at Atlantic City and Asbury Park, has returned to her home in Ulster Park.

Mr. and Mrs. Jason Schler of two sons and Mr. and Mrs. Edith Wallkill spent Sunday at the home of Mr. and Mrs. J. Schler at Ulster Park.

Dr. George Warren of 15 Park street has returned from an extended trip in the west, where he visited his aged parents and brothers. He has resumed his practice.

Miss Valma Hermance of Lab. Katrina has returned home from a motor trip through the New England States with her cousin, Miss Maud Graves, of West Shokan.

Mr. and Mrs. James Condon of son, John, and Miss Bessie Smith of this city and Mr. and Mrs. Robert Boice of Catskill have returned to their homes after spending the past ten days at Peck's Lake in the Ad

WEDNESDAY, SEPT. 14, 1927.

News of the Day In Wall Street

New York, Sept. 14 (AP).—An extra dividend of \$2 a share was declared today by Air Reduction Company, in addition to the regular quarterly dividend of \$1.25, both payable October 15 to holders of record September 30. Paul Thompson, vice-president of United Gas Improvement Company, and F. Eugene Newbold of Newbold and Company, Philadelphia, were elected directors to fill vacancies.

A statement of the New York, New Haven and Hartford Railroad to the New York State Public Service commission as of June 30, shows total assets of \$572,001,295 against \$551,798,614 the year before, and profit and loss surplus of \$223,584 in contrast to a deficit of \$38,576,591. Current assets were \$32,736,149 and current liabilities \$16,219,978.

West Coast Oil declared the usual extra dividend of \$3 on the preferred and the regular quarterly of \$1.50 both payable October 5 to stock of record September 24.

It seems that all good things to eat are indigestible.

Wrecked Autos Should Be Moved From Highways

As Soon As Possible After Wreck Takes Place—Order From State Trooper Is Not Necessary—Garage Men Labor Under Delusion.

There seems to be an impression in certain sections of the county among garage men that when a wreck or accident happens on the highway the wrecked automobile cannot be moved until authority is given by a State Trooper. Of late several reports have been received where wreckers refused to act even though called by one of the parties involved in an accident until a Trooper has arrived on the scene. This attitude has in some instances caused great inconvenience to traffic and has resulted in confusion which was absolutely unnecessary.

There is no such order in existence. No such order has been given by State Troopers and it is the duty of owners of cars or garage men to remove wreckage from the highway, sufficient to allow traffic to proceed as soon as possible after a wreck takes place.

This attitude which has evidently gained quite wide circulation among some garage men has caused considerable comment. Many people after being told by garage men that they cannot move a wreck until a State Trooper authorizes its removal have been under the impression that there is such an order in effect and it has caused some unfavorable comment against the State Troopers, especially where traffic has been tied up. This criticism is unjust since it is not the Troopers but the ignorance of the wrecking crew which has caused the delay.

No Order Issued.
When asked if such an order was ever issued by the Troopers, Sergeant James Cunningham, in charge of local trooper operations, stated that there had never been such an order and no garage had ever been given such instructions.

In certain cases where there is a criminal element involved it might be necessary for a State Trooper to order the cars to remain unmoved until an investigation is completed but such an order would be given only in that particular case and is not to be considered an order to apply to all cases.

Recently a wreck on the Saugerties road tied up traffic for a long time because the wrecker called refused to move the cars until a Trooper was summoned to the scene. At that time the Trooper in that section was busy on a case several miles away and it is an impossibility for him to be in two places at one time. Sunday the same condition arose on the highway south of Kingston when a wrecker refused to act until a State Trooper could be secured.

Will Not Act As Court.
In case of an accident the Troopers investigate to determine if there is criminal negligence involved and if an arrest should be made. Where there is no such negligence all a Trooper can do is to note the position of the cars, the same as any other witness, on his arrival. Neither the Troopers or the Sheriff will act as a court and determine who is in the wrong or how much civil damages one party or the other is entitled to for damage to a car.

In case there is the element of reckless driving involved and a driver should be arrested, any citizen who should be arrested may exercise the right to place the guilty party under arrest and turn him over to an officer. Where an officer does not see an accident he cannot arrest the offender without a warrant unless there is apparent evidence of criminal negligence.

The State Troopers should not be criticized for the ignorance of certain garage men or charged with issuing a ridiculous order which has originated in the minds of the garage men or the public.

The highway should never be allowed to continue to be blocked after an accident and thus increase the danger of further accident.

MODENA.

Modena, Sept. 14.—Mr. and Mrs. Eugene Paltridge were entertained at the home of Mr. and Mrs. Theodore Coy Sunday evening.

Mrs. Mary Smith entertained relatives at her home Sunday.

Philip Jenkins, who has been spending some time in New York, returned to his home Saturday.

Borden Monell of New Hurley was a caller in town Sunday.

Mr. and Mrs. Sidney Wells of New Rochelle spent the week end at the home of Mr. and Mrs. James Clinton.

Wesley Finch has accepted a position with the Clintondale Fruit Growers' Association.

DeWitt Wager, who has been employed at Salt Point during the summer, has returned home.

Mr. and Mrs. Alvin Coy are the proud parents of a boy, born Sunday, September 11.

The members of the Modena Sunday school held their picnic on Saturday afternoon at Elliswood, Clintondale.

Joseph Berg entertained friends from Cleveland, Ohio, over the week end.

Margaret and Anna Lucy returned to New York after spending their summer vacation at the Lucy home.

Miss Ira Alexander, of Accord spent the week end at the home of Mrs. Minerva Wager.

Mr. and Mrs. Eugene Paltridge and Mr. and Mrs. Oscar Church called on Dr. and Mrs. Fred H. Voss of Kingston Sunday.

Mr. and Mrs. Arthur Seymour entertained relatives Sunday.

Eber and George Smith spent Sunday at Mountainville.

Miss Florence Rusk has been spending some time with relatives in Newburgh.

Mr. and Mrs. Harold Paltridge and Mr. and Mrs. Hallock Harris were business callers in Middlehope Friday evening.

Never be discouraged. The dawn and out today may be up and in tomorrow.

'AUTO CAMPING IS QUITE POPULAR

Becoming More and More Important Factor in Car Industry.

Fifteen million automobile campers with all the long, long trails from the Atlantic to the Pacific coast this summer, according to estimates compiled for the Women's Home Companion, from cities bordering the best known transcontinental routes.

Anticipating this peak in the form of summer outings, which has grown like a speeding avalanche in the past few years, automobile and sporting goods manufacturers have met the demands of the tourists with ingenious devices providing the nearest approach to home comforts and towns and cities have so improved the rest camps in their outskirts that the 15,000,000 wanderers will be able to realize only by the intervening scenery that they have left their own dwellings.

Under Roof for Night.

Those who do not like the hardships of sleeping in tents will be able to travel over the northern trail from the Atlantic to the Pacific northwest, down the coast to the southwest and back again, without being deprived of the shelter of a roof for the night.

This is due to the cottage camp system, which has been developed to such an extent that auto camping does not necessarily have to be camping.

The cottage camp affords a screened and furnished lodging, lacking only cooking utensils, gasoline stove and blankets. Moreover, many of the camps provide playgrounds, laundries, cafeterias, barber shops, and even beauty parlors and soda fountains.

Prefer Real Camping.

There are still many, however, who prefer real camping as they go, but even for them there are improved tents with sewed-in floors, compact cooking outfits which even permit of freshly-baked pies and roast fowls, luxurious air mattresses and auto connection lighting systems to smooth out all the little irritations that used to go with the shortest outing.

The tremendous growth in popularity of motor car camping is becoming a more and more important factor in the automobile industry.

Cure Rattle of Fenders With Leather or Rubber

Unsubstantial fender irons, in some light cars particularly, when these are made of half round or flat iron fitted in such manner that they overhang considerably from the point of support, are not rigid enough to prevent springing, under the strain of constant road shocks. The result is the valance and the iron slap together with a sound like that of beating a tin can, yet, when the car is stationary and the owner feels the fenders to find this slackness which causes the noise, they usually appear to be perfectly rigid.

A good plan is to force the valance back with a screwdriver and insert a small piece of leather or rubber, such as a slice from an old inner tube. Felt may also be used. Though the fender and valance appear to fit snugly against the supporting iron when the car is stationary, vibration set up when the car is in operation causes the noise and the pad will insulate the noise so that it is not transmitted to other parts.

Use of Automobile Has Spread to Persian Gulf

For years the use of the automobile has been spreading to those outlying districts where progress moves with heavy feet. The latest country to adopt the automobile for general use is Bahrain, an independent sheikdom on a group of islands in the Persian Gulf.

Bahrain has several miles of improved roads, as well as many miles of desert roads which are passable for automobile traffic. In February, 1926, there were 120 cars and two trucks registered with the authorities and this number increased during the year to between 155 and 150 passenger cars and 3 trucks.

BRUSH CUTTER ATTACHED TO A TRACTOR

The photograph shows a device designed by the highway department of Multnomah county, Oregon, to cut weeds and underbrush from the sides of the highway. The progress is about equal to the speed of a fast-walking horse.

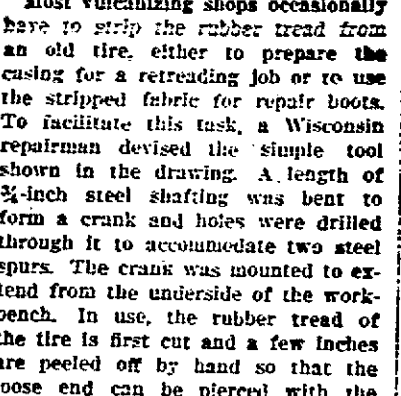

Clear Your Skin With Cuticura
Scalp to Cleanness
Ointment to Heal
Absolutely Painless Remedy

Safety Suggestions for Driving an Auto
Drive over to the right as far as possible at all times.
If the car's service brakes are functioning properly they will stop it within 50 feet from a speed of 20 miles an hour.
If the street is wet and slippery, allow at least 20 feet between your car and the one ahead, except at low speed.
Never pass a car going in the same direction until you are positive its driver knows your intention.
When driving fast, keep a firm grip on the steering wheel. A puncture or blowout, otherwise, may cause the car to swerve off the road.
Remember that the inside of the curve belongs to the car coming from the other direction.

Stripping Rubber Tread From Tire Is Made Easy

Most vulcanizing shops occasionally have to strip the rubber tread from an old tire, either to prepare the casing for a retreading job or to use the stripped fabric for repair boots. To facilitate this task, a Wisconsin repairman devised the simple tool shown in the drawing. A length of 3/4-inch steel shafting was bent to form a crank and holes were drilled through it to accommodate two steel spurs. The crank was mounted to extend from the underside of the workbench. In use, the rubber tread of the tire is first cut and a few inches are peeled off by hand so that the loose end can be pierced with the

Peeling Tread From Old Auto Tires With a Crank

spurs. With the tire standing up under the crank, it is only necessary to turn the crank to remove the tread. If the tread is heavy, the tool is stopped after several turns so that the rubber wrapping can be removed from the shaft and cut away.—Popular Mechanics Magazine.

Oil Costs More

Motorists in the vicinity of Mexico City, situated in the midst of a rich oil area, have to pay nearly twice as much for their fuel as do motorists far from oil fields in the United States. Here, for instance, the cost of fuel has gone as high as 35 cents a gallon. The reason is the crude oil has to be shipped to the United States for refining and then back to Mexico for sale. This incurs heavy freight charges both ways.

AUTOMOBILE NOTES

India now has 80,000 automobiles.

Concrete and brick roads are easiest on tires.

The driver who is a road hog in the country is usually a parking hog in the city.

Eighty-nine per cent of the gasoline-tax receipts are used for rural roads and highways.

Even the motorist who avoids running into pedestrians isn't always able to avoid running into debt.

Atlantic City Motor speedway is claimed by many automobile experts to be the fastest track in the country.
